Not a problem, Lauren. I should have the new CPUC IDs ready for you later this week. Please keep us updated with any changes to the status of your Shortlist.

Cem and Robert -

I just wanted to reiterate that the list I sent you was the current confidential draft list of projects, specifically referring to the projects with no CPUC ID, which are obviously the new projects that are under negotiations. As you know, we are still in the process of revising our shortlist for the 2011 Solicitation and plan to file with the CPUC shortly. The file I sent should only be used to assign CPUC IDs and not shared as it is not 100% final. I wanted to clarify this to avoid any confusion in the future regarding what

will be our final shortlist. Once the shortlist is 100% final I will contact you with any changes to the PDSR project list.

Please let me know if you have any questions.

Thank you,

Cem and Robert -

Attached please find a project list of all projects that will be contained in PG&E's March 2012 RPS PDSR. Per our discussions, please verify and assign any necessary CPUC IDs. The columns I have included are the current CPUC ID we have, the IOU ID and the Project Name for each project but let me know if you need additional data points in order to assign CPUC IDs. Also, please make sure to highlight any new or altered CPUC ID, as I will be updating our PDSR file *manually*. Since we've already starting drafting the PDSR, I'd like to get the updated CPUC IDs by February 1, 2012. Please let me know if this works for your workload.
