RE: Pacific Gas and Electric Company's Non-tariffed Products and Services (NTP&S)
Information-Only Report

Dear Ms. Kahlon:

This letter is a follow-up to our meeting regarding PG&E's NTP&S information-only report on December 6th, 2011 with you, Jack Fulcher and Jonathan Tom. Thank you for taking the time to meet with us and for sharing your comments. We found the meeting to be useful in better understanding revisions that the Energy Division would like to see in the NTP&S information-only report.

One of the issues we discussed in the meeting was making the report available to more than the parties of R.05-10-030 and A. 09-12-020. Decision 11-05-018, Ordering Paragraph 40, provides that "The report shall be made available to the parties to this proceeding as well as the parties in Rulemaking 05-10-030." The Energy Division asked PG&E to make the report available to all individuals listed on the two associated service lists rather than just providing it to the parties. We have taken your feedback into consideration and will make the revised NTP&S information-only report available to everyone listed on the above service lists.

In addition, based on your feedback, PG&E's revised NTP&S information-only report will include more extensive descriptions of each category with examples to give the Energy Division a better sense of how these services will be performed. PG&E will also provide descriptions of the assets used to provide these services and an overview of the market for the service that includes existing firms, ease of entry, and our best estimate of prices charged for these services.

Once the revised NTP&S information-only report that incorporates these comments is submitted to the Energy Division and service lists R.05-10-030 and A. 09-12-020, PG&E understands it will be authorized to commence offering the other IOU's products and services listed in the information-

only report starting thirty (30) days after submission. We expect to submit the revised report by end of this month.

Sincerely,

/s/

John Hughes
Director, Regulatory Relations
