Advice 3997-E
(Pacific Gas and Electric Company ID U 39 E)

Public Utilities Commission of the State of California

Subject: Update to Pacific Gas and Electric Company's 2010 Bundled Procurement Plan – Electric Portfolio Hedging Plan**I. Purpose**

Pacific Gas and Electric Company (PG&E) hereby requests approval of a proposed update to its Electric Portfolio Hedging Plan (Hedging Plan), Appendix B, Sections D.1 and D.2 of PG&E's approved 2010 Bundled Procurement Plan (BPP). The purpose of this update is to increase the Liquidity Limit, which is a component of the Liquidity Management Strategy included in the Hedging Plan.

II. Summary of Update Filing

In accordance with Decision (D.) 07-12-052 and D.12-01-033, approving PG&E's 2010 BPP, all updates proposed to PG&E's approved 2010 BPP between the biennial procurement plan filings are made through the advice letter filing process. An advice letter filing should include redlined pages of PG&E's approved 2010 BPP, as well as clean replacement pages.¹ Accordingly, Attachments A (redlined) and B (clean) reflect the relevant changes to the Hedging Plan, Appendix B, Sections D.1 and D.2 of PG&E's approved 2010 BPP incorporating the proposed Liquidity Limit increase. In addition, Attachment C provides a summary of PG&E's proposed Liquidity Limit increase and explains the reason and need for this update to the Hedging Plan.

III. Confidential Information

The revised Hedging Plan pages that include the Liquidity Limit update (Attachments A and B) and summary of proposed changes (Attachment C) are confidential in their entirety. The information included in these attachments falls within the long-term fuel (gas) buying and hedging plans category from the Investor Owned Utility Matrix, Appendix 1 of D.06-06-066, which allows confidential treatment for three years (Item I.A.4). Moreover, given that the analyses, strategies, assumptions and planning are part of a consistently-executed

¹ D.07-12-052 at pp. 184-185.

Hedging Plan that extends over multiple years, PG&E requests that Attachments A-C remain confidential for more than three years. Releasing confidential information related to the Hedging Plan after three years is likely to result in releasing key information about future years' implementation of the Hedging Plan.² Thus, PG&E requests that Attachments A-C remain confidential for three years following expiration of the last trade executed under the Hedging Plan. This request for an extended confidential treatment is similar to PG&E's request (that was granted by the Commission) in PG&E's gas supply plans for the California Department of Water Resources.³

Tier Designation

This advice letter is submitted with a Tier 3 designation.

² "[T]he fact that the hedging plans are now over three years old does not mean that the information contained in those plans no longer is commercially sensitive...Disclosure of the older hedging plans could provide...market participant, with a road map of how each of the utilities approaches winter hedging, including the timing and strategy for hedging within a volatile, high-priced environment, such as was experienced during 2005 and 2006." *ALJ's Ruling Denying Motions to Compel Discovery* dated July 8, 2009, p. 4, in R.08-06-025.

³ PG&E's Advice Letter 3853-E was approved by the Commission and became effective on November 1, 2011.

⁴ The protest period concludes on a weekend. PG & E is hereby moving this date to the following business day.

THE CONFIDENTIAL TREATMENT OF PG&E'S ADVICE LETTER FILING 3997-E**

I, Harold Pestana, declare:

1. I am a Senior Manager in the Energy Supply Management organization at Pacific Gas and Electric Company (PG&E). I am responsible for management of PG&E's short-, medium- and long-term' electric portfolio. This declaration is based on my personal knowledge of PG&E's electric portfolio and my understanding of the Commission's decisions protecting the confidentiality of market-sensitive information concerning fuels management of an investor-owned utility.

2. Based on my knowledge and experience, and in accordance with the "Administrative Law Judge's Ruling Clarifying Interim Procedures For Complying With Decision 06-06-066," issued in Rulemaking 05-06-040 on August 22, 2006, I make this declaration seeking confidential treatment for certain information contained in PG&E's Advice Letter 3997-E.

3. Attached to this declaration is a matrix identifying the data and information for which PG&E is seeking confidential treatment. The matrix specifies that the material PG&E is seeking to protect constitutes the particular type of data and information listed in Appendix 1 (the "IOU Matrix") of Decision 06-06-066 or constitutes information that should be protected under General Order 66-C. The matrix also specifies the category or categories in the IOU Matrix to which the data and information corresponds, and why confidential protection is justified. Finally, the matrix specifies that: (1) PG&E is complying with the limitations specified in the IOU Matrix for that type of data or information; (2) the information is not already public; and (3) the data cannot be aggregated, redacted, summarized or otherwise protected in a way that

allows partial disclosure. By this reference, I am incorporating into this declaration all of the explanatory text that is pertinent to my testimony in the attached matrix.

I declare under penalty of perjury, under the laws of the State of California, that the foregoing is true and correct. Executed on January 26, 2012 at San Francisco, California.
