Subject: RE: Additional Information Required - Padilla

Robert

Given we did not receive this portion of the request until last night, we will not be able to turn this all around by the noon timeline you requested in the first email you sent out with additional columns. All this information takes time for us to pull together. We will turn it around as quickly as we can, and are looking into this additional request now.

Please note that in the original submission, we already provided an explanation for those contracts with no costs associated with them and labeled them as "zero" per some previous email chains instead of "NA."

Thanks,
Maggie

[Redacted]

In my prior information request, I neglected to attach an additional worksheet for you to provide missing Contract Prices. Please find attached an additional Excel Document for you to provide us with missing Contract Prices (Post and Pre-TOD adjusted, in \$/MW). As in the other information request, I have highlighted the cells I need you to populate in bright Orange. If information is not available, please mark the cell with "NA," so we can verify that you checked for each piece of information. If a project does not have an Contract Price (\$/MW), please put a note in the column to the far right labeled "Notes."

Additionally, in regards to your question about turning in the small hydro information on Friday.. I was unable to speak to Jaclyn today, however, I will make sure to track her down

tomorrow morning. I will call you as soon as I have any update.

Again, thank you for your assistance on this project, and if you have any questions or concerns, please feel free to contact Robert Blackney (rb3@cpuc.ca.gov) and Jaclyn Marks (jm3@cpuc.ca.gov).

Thanks!

[Redacted] and Meredith,

As Energy Division Staff were processing your return, we noticed that we do not have a Contract Approval Date for each of the projects Listed.

Please find attached a request for the missing information. Please populate each of the orange colored cells in the attached document with the information pertinent to our Data Request. If information is not available, please mark the cell with "NA," so we can verify that you checked for each piece of information. If a project does not have an approval date (i.e. Feed-in tariff), please put a note in the column to the far right labeled "Reason Why No Approval Date."

Your immediate response is appreciated. *Energy Division needs this information no later than 12pm on Wednesday, January 18, 2012, in order to process our report to the California Legislature, and meet the statute's deadline.*

If you have any questions or concerns, please feel free to contact Robert Blackney (rb3@cpuc.ca.gov) and Jaclyn Marks (jm3@cpuc.ca.gov).

Thanks,
