Subject: RE: Workshop Notice - System Safety & Security

Hello,

Okay, we need to cut down the utility attendees to two per utility as mentioned in my other email. I think it would be best to bring in an operations guy along with your attorney; I apologize, but due to space limitations we cannot accommodate more than two attendees per utility.

Thanks,

marzia

Hello,

Thank you for the email. We are actually hoping that each utility can bring no more than two people to ensure we have room for everyone. Edison has already responded and they will be bringing the following people; I think it would be appropriate for Sempra and PG&E to follow suit.

SCE - Frank McNulty of the SCE Law Department, Robert LeMoine of our Transmission and Distribution Business Unit

Thanks,

While we have not yet finalized our list of attendees, there may be as many as half a dozen folks from PG&E to ensure both gas and electric are represented.

Subject: Workshop Notice - System Safety & Security

Good Morning, and Happy New Year,

Attached is the agenda for next week's workshop on utility system safety and security scheduled for Jan 11th. I'm also attaching the straw proposal, however, please note that we are looking for new ideas and are open to improving the process beyond the straw proposal which are just one set of recommendations.

If you have not yet RSVP'd, but are planning to attend the workshop, please send me a note by close of business tomorrow. We need to know how many people will be attending in order to make the appropriate arrangements.

Regards,
marzia
