Robert/Jaclyn

Per your request, am submitting additional information to supplement PG&E's first response to the Padilla Bill Data Request. This submission consists of the following:

- 1) Non-UOG Project Information - We've taken the first response and supplemented with the additional columns of data you requested related to Commission Approval dates, pre/post-TOD adjusted contract pricing, and technology. These additional columns have been highlighted in yellow. Additionally, as discussed, we've included a note for the QF projects that the pre/post-TOD adjusted contract pricing concept is not applicable.
- 2) RPS Hydro UOG Information - As discussed, we've added information on PG&E's small hydro UOG projects in the aggregate.
- 3) PV UOG Information - We've added the PV Program UOG information.

Please note that the confidentiality declaration and matrix submitted with the first response applies to this submission as well and has been reattached for your reference. Should you have any questions, please do not hesitate to contact me.

Thanks,
