5 Q.1. Please state your name and business address.

6 A.1. My name is David Peck. My business address is 505 Van Ness Avenue, San  
7 Francisco, California 94102.  
8

9 Q.2. By whom are you employed and in what capacity?

10 A.2. I am employed by the State of California at the California Public Utilities  
11 Commission (CPUC) as a Program and Project Supervisor in the Division of  
12 Ratepayer Advocates (DRA).  
13

14 Q.3. Please describe your educational background and professional experience.

15 A.3. I have Bachelor of Science Degree with a double major in Industrial  
16 Engineering and Computer Science from the University of Wisconsin,  
17 Madison. I have also earned a Master of Science Degree in Industrial  
18 Engineering and Management Sciences from Arizona State University as part  
19 of a Motorola-ASU Industrial Fellowship award. From 1993 to 2007, I have  
20 been employed in the Semiconductor and Semiconductor Equipment industries  
21 where I have managed engineering development programs and performed  
22 systems design research and analysis. I have been employed by the California  
23 Public Utilities Commission since October 2007. I have testified as an expert  
24 witness in nine cases on topics including demand response, distributed solar  
25 PV, conventional generation, and Long Term Procurement Planning (LTPP). I  
26 also prepare protests, comments, discovery, analysis, and advocate for DRA in  
27 many energy procurement proceedings before the Commission. As of 2011, I  
28 am the Supervisor for DRA's Natural Gas Section where I serve as project  
29 manager and oversee staff's analysis and preparation of expert testimony in  
30 natural gas utility procurement and policy proceedings, biennial cost allocation  
31 proceedings, interstate pipeline capacity matters, natural gas rulemakings and  
32 investigations, and gas procurement incentive mechanisms.  
33

34 Q.4. What is your area of responsibility in this proceeding?

35 A.4. I am DRA's Project Coordinator and I am sponsoring Exhibit DRA-01  
36 Prepared Testimony in R.11-02-019 with respect to an executive summary of  
37 DRA's findings and recommendations for PG&E's Pipeline Safety  
38 Enhancement Plan submitted on August 26, 2011.

5 Q.1. Please state your name and business address.

6 A.1. My name is Thomas Roberts. My business address is 505 Van Ness Avenue,  
7 San Francisco, CA 94102.

8  
9 Q.2. By whom are you employed and in what capacity?

10 A.2. I am employed by the California Public Utilities Commission as a Senior  
11 Utilities Engineer in the Electric Pricing and Consumer Program Branch of the  
12 Division of Ratepayer Advocates (“DRA”).

13 Q.3. Please describe your educational background and professional experience.

14 A.3. I received a Bachelor of Science Degree in Mechanical Engineering from the  
15 California Polytechnic University in 1988, and a Masters of Business  
16 Administration from the Peter F. Drucker Center at the Claremont Graduate  
17 School in 1994. I am currently registered in California as Professional  
18 Mechanical Engineer.

19  
20 As a Regulatory Analyst and Engineer, I have contributed to a wide variety of  
21 proceedings, including advanced metering infrastructure (AMI), energy  
22 efficiency (EE), and avoided costs. I provided testimony on DRA’s behalf in  
23 the 2006 Long Term Procurement Proceeding (LTPP), in 2007 hearings on the  
24 EE Risk/Reward Incentive Mechanism, and Marginal Generation Costs in  
25 PG&E’s most recent GRC Phase 2. I have served DRA as project coordinator  
26 for AMI programs, and for distributed generation programs including the  
27 California Solar Initiative (CSI) and the Self-Generator Incentive Mechanism  
28 (SGIP). Prior to joining DRA, I held various professional positions including  
29 Senior Test Engineer/Scientist and Program Manager at Boeing Space  
30 Systems, and as an applications engineer for a mechanical instrumentation  
31 manufacturer.

32  
33 Q.4. What is your area of responsibility in this proceeding?

34 A.4. I am sponsoring DRA’s Exhibit DRA-03 Prepared Testimony in R.11-02-019  
35 with respect to Review of Transmission Pipeline Modernization Program for  
36 PG&E’s Pipeline Safety Enhancement Plan submitted on August 26, 2011.

9   Q.2. By whom are you employed and in what capacity?

10  A.2. I am employed by Berkeley Engineering and Research, Inc as a Mechanical  
11       Engineer.

12  
13  Q.3. Please describe your educational background and professional experience.

14  A.3. From 1993 to the present, I have worked as a mechanical engineer at Berkeley  
15       Engineering and Research, Inc., where my work includes consulting with  
16       various companies regarding design and analysis of mechanical components  
17       and systems, including pipelines, piping, and associated components. My  
18       design and forensic work has ranged from bio-mechanical implants smaller  
19       than a fingernail, to high temperature pressure vessels 10 stories tall.

20       From 2000 to the present, I have served as the Vice President of Engineering  
21       for 4D Imaging, Inc., where my responsibilities include the oversight,  
22       management and development of three-dimensional scanning devices and  
23       services, software development, mechanical equipment inspection and  
24       evaluation services. In addition, my responsibilities include software  
25       development, mechanical equipment inspection and evaluation services,  
26       prototype design and development. This work has included piping and  
27       pressure vessel inspection, monitoring, and analysis as well.

28       I have been an instructor at U.C. Berkeley in the mechanical engineering  
29       department teaching the senior Mechanics of Materials course where I  
30       conducted lectures on the design and analysis of mechanical components.

31       I am a Registered Mechanical Engineer in the state of California.

32       I have qualified as an expert in Mechanical Engineering in United States'  
33       Courts. I have testified regarding engineering issues similar to the ones  
34       involved in this case.

35       My education includes a Bachelors of Arts degree in Astrophysics from the  
36       University of California at Berkeley (1994), Bachelors of Science degree in  
37       Engineering Physics from the University of California at Berkeley (1994),  
38       Masters of Science in Mechanical Engineering from the University of

1 California at Berkeley (1995), and a PhD in Mechanical Engineering from the  
2 University of California at Berkeley (2002).

3

4 Q.4. What is your area of responsibility in this proceeding?

5 A.4. DRA's Exhibit DRA-04 Prepared Testimony in R.11-02-019 with respect to
