Subject: FW: Information Session for Commissioners on Hydrotesting, One Year Later

Trina- Paul has suggested an information session/update for the Commissioners on hydrotesting, similar to the one we put together last May so we can get ahead of the reports by the union welders of faulty welds, unsafe pipes, etc. Sunil's looking into it for us and doesn't think there's anything to it, and it appears PG&E is convinced there's nothing to it, but test-or-replace is the cornerstone of our whole physical approach on gas transmission and we can't afford the media or the public to start thinking there's something vaguely unsafe about it, even a little.

Tom designated you as my contact for PG&E to scope out a plan. Here's the agenda for the one last summer:

http://www.cpuc.ca.gov/NR/rdonlyres/41EE3F8D-625F-4605-AE74-179A0D35F72A/0/HydrostaticTestingSymposiumAgenda_v2.pdf

Are you available between 3 and 3:30 for a call? That is the only time I have today.

Thanks.

Michelle
