Subject: RE: copy of scope document?

Joyce

I will forward it tonight or tomorrow when I get back in the office.

Bill

Subject: copy of scope document?

Hi Jane and Bill,

Thanks again for conversing with me about SB705, GRCs and other topics yesterday. I find that having an informal interface in regulatory work is very helpful, so I appreciate you taking the time to chat.

I am wondering whether one of you can forward me that scope of work document that you mentioned working on, I think it related to PG&E discussions with Michelle Cooke related to the CPUC using professional consulting resources to evaluate the safety and security aspects of O&M and capital investment plans?

We are having an internal meeting this afternoon, and it would help me to have what you shared. Thanks again!

Joyce W. Steingass, PE
