**Subject:** CPUC meeting requests

Nick and Tom,

As you are aware, Jim Hall & Associates met with Paul Clanon on February 1<sup>st</sup>. During their discussion, three follow-up meetings were requested. The first two would be with staff and the last with commissioners.

1) Meet with CPUC safety committee regarding penalties.

*(prework – provide an update on fines assessed)*

2) Meet with the CPUC group that is working on a gas risk assessment in totality of PG&E.

*(prework – briefing by internal risk group)*

3) Meet with the other Commissioners.

*(prework - need clear guidelines from law on ex-parte rules)*

Jim Hall, Bob Chipkevich and Bill Scott will be in San Francisco on the following dates:

March 8 & 9

April 9-13

May 21-25

Tom & Nick, I am looking for suggestions on who I should work with to coordinate these meetings?

Jim, please clarify if I misunderstood the requests.

Thanks, Lisa

Lisa Hurley
