Subject: RAM check-in

Hi Meredith,

With the deadline having passed last week to notify developers if their bids were selected for the RAM short-list, Energy Division staff wants to schedule a phone call so that PG&E can update the Commission on its RAM program.

Please schedule a time later this week or early next week for a call with Jaclyn Marks and Adam Schultz at the CPUC to address the following topics, in addition to any others that the utility wishes to raise related to RAM:

- Provide an update on the utility's RAM short-list. Has the utility received acceptances from any developers?
- When does the utility plan to hold its RAM Program Forum?
- The original intention of Energy Division staff was to only implement programmatic changes that would affect the 3rd Auction given the time needed to file and process a Tier 3 advice letter. That said, Energy Staff will consider any significant issues that the utility believes must be modified in time for the 2<sup>nd</sup> Auction.

Please schedule a call with Jaclyn Marks and myself when the appropriate PG&E staff have prepared the necessary information to provide the Commission with an update on its RAM program.

Let me know if you have any questions.

Thanks,

Adam Schultz
