Subject: CPUC Thought Leaders: Revitalizing the Clean Energy Economy

The next event in the CPUC Thought Leaders series (www.cpuc.ca.gov/thoughtleaders), "**Revitalizing the Clean Energy Economy**", will be taking place on March 8th, from 1:30 to 3:30 PM, in the CPUC auditorium (505 Van Ness Ave. San Francisco).

Just a few years ago, the USA appeared to have the ability and the will to become the global leader in the transition to a clean energy economy, with California at the forefront. However, various political and economic events have significantly slowed that momentum. This panel discussion will identify new potential government policies and private sector strategies in California for achieving the intent of Assembly Bill 32: reducing greenhouse gas emissions to 1990 levels by 2020.

Our Panelists:

-

Nathaniel Bullard, Director of Content, Bloomberg New Energy Finance

Efren Carrillo, Supervisor, 5th District, Sonoma County

Brad Copithorne, Energy and Financial Policy Specialist, EDF

Nancy E. Pfund, Founder and Managing Partner, DBL Investors

Eric Wesoff, Senior Analyst with GreenTech Media, will be our Moderator.

This event is free to the public. For a brief registration, please go to this link:
<http://ia.cpuc.ca.gov/thtleaders/>

The event will also be webcast at: <http://www.californiaadmin.com/cpuc.shtml>

Feel free to forward this invitation to anyone you believe could be interested.

If you have any questions, please contact Ted Howard of the CPUC Policy and Planning Division (ted.howard@cpuc.ca.gov).

We hope you can join us!
