Sean -

Thanks so much for getting back to me quickly. Yes, that does make sense. I will ignore the table on page 2 of the Final Resolution and refer to Appendix A on page 16 and the table in the 2011 MPR Excel Model file. We really appreciate the clarification.

Thank you.

Lauren,

I looked at the 2011 MPR resolution and model. The MPR values in Appendix A of Resolution E-4442 are the same as the values generated in the MPR model. Given the clear language in Ordering Paragraph 1 (see below), PG&E's tariff should reflect the MPR values in Appendix A. Does that make sense?

Resolution E-4442, Ordering Paragraph 1

The 2011 market price referents in Appendix A are approved for use in the 2011 Renewables Portfolio Standard solicitations and relevant tariffs which employ the

Renewables Portfolio Standard market price referent.”

Regards,

Sean
