**MONTHLY REPORT OF SOUTHERN CALIFORNIA GAS COMPANY (U 904 G) ON  
LOW-INCOME ASSISTANCE PROGRAMS FOR JANUARY 2012**

This is the first monthly report of program year (PY) 2012. The purpose of this report is to consolidate activity for the CARE Program and Energy Savings Assistance Program and provide the Energy Division with all the necessary information to assist in analyzing the low-income programs during the bridge funding period authorized by the Commission in Decision 11-11-010. This report presents the Energy Savings Assistance Program and CARE results and expenditures for January 2012 for Southern California Gas Company (SoCalGas).

Respectfully Submitted

/s/ Kim F. Hassan

## ENERGY SAVINGS ASSISTANCE PROGRAM MONTHLY REPORT

### 1. Energy Savings Assistance Program Executive Summary

#### 1.1. Energy Savings Assistance Program Overview

1.1.1. Provide a summary of the Energy Savings Assistance Program elements as approved in Decision (D.) 08-11-031:

Program Summary through Month 1			
	Authorized / Planning Assumptions	Actual to Date	%
Budget	\$45,188,134*	\$369,927	1%
Homes Treated	*	0	*%
kWh Saved	N/A	N/A	N/A
kW Demand Reduced	N/A	N/A	N/A
Therms Saved	*	0	*%

Six month Bridge Funding authorized in D.11-11-010. Awaiting Commission authorization of program goals for the year.

As part of its year-end accrual process for PY2011, SoCalGas processed and paid contractor invoices for 12,495 treated homes. SoCalGas also paid for the installation of weatherization measures in 10,103 homes. These invoices will be applied to 2011 program activity and will be reflected in SoCalGas' Annual Report that will be submitted on May 1, 2012. The enrollments currently being processed and the installations completed in January will be reported in the February monthly report tables as part of PY2012.

## 1.2 Whole Neighborhood Approach Evaluation

**1.2.1** Provide a summary of the geographic and customer segmentation strategy employed, (i.e. tools and analysis used to segment “neighborhoods,” how neighborhoods are segmented and how this information is communicated to the contractor/CBO).

In January, SoCalGas combined efforts to provide its Energy Savings Assistance Program contractor network with an additional 32 canvassing lists using the Whole Neighborhood Approach (WNA) strategy. SoCalGas continues to offer its contractors flexibility in the planning, timing and completion of their WNA efforts. This approach, in conjunction with SoCalGas oversight and guidance, allows contractors to customize their activities to meet the needs of each neighborhood as well as the needs of each customer. Contractors are asked to document all facets of each WNA effort: total number of completed homes, customers not willing to participate, successful canvassing and / or marketing efforts, and any other information that can help increase eligible customer enrollments. This detailed accounting serves to assist both the contractors and SoCalGas with future WNA activities. Additionally, smaller geographic focus of Zip+7 areas, coupled with tracking methods, take into account the amount of time contractors spend working in an area and allow SoCalGas to better monitor the success of Energy Savings Assistance Program activities from a whole neighborhood perspective. The tracking methods include detailed instructions to contractors regarding data entry in the HEAT System<sup>1</sup>, both pre- and post-canvassing, to ensure specific information is captured. This information will be used to help SoCalGas distinguish WNA efforts from routine canvassing and also capture the

---

<sup>1</sup> The HEAT System is SoCalGas' Energy Savings Assistance Program database used to track program activity and expenditures.

disposition of WNA leads that do not result in an enrollment, (i.e., “unable to contact,” and “customer refused”).

The canvassing lists generated in January were initiated in new Zip+7 areas, not previously targeted for WNA efforts (see table below for areas). Collectively, the canvassing lists identified an additional 7,281 customer addresses, of which 3,271 (45%) are potentially eligible based on Energy Savings Assistance Program income eligibility criteria. Additionally, based on SoCalGas data, 1,911 of the 7,281 (26%) addresses are in targeted self-certification PRIZM codes<sup>2</sup>.

<b>Number of WNA Events per City</b>	<b>Contractor</b>
La Habra – 20	<b>ACS Group</b>
Nuevo – 10	<b>Synergy Companies</b>
Moreno Valley – 2	<b>The East Los Angeles Community Union</b>

Through January, SoCalGas and its Energy Savings Assistance Program contractors treated 18 homes through WNA activities.

---

<sup>2</sup> Prizm codes are an area set of customer segmentation data widely used for marketing purposes in the United States. The data consist of demographic clusters that categorize every U.S. household into a segment. These segments were developed in part from the analysis of U.S. census data and categorize U.S. consumers into 14 distinct groups and 66 segments. The segments help marketers tailor content to consumers' needs and look at a variety of factors, including income, likes, dislikes, lifestyles and purchase behaviors.

<sup>3</sup> An “impression” is a measure of the number of times an ad is displayed on a page, whether or not it is clicked. Each time an ad displays on a site, it is counted as an impression.

<sup>4</sup> Clickthrough rate (CTR) is a way of measuring the success of an online advertising campaign for a particular website. The clickthrough rate of an advertisement is defined as the number of clicks on an ad divided by the number of times the ad is shown (*impressions*), expressed as a percentage. For example, if a banner ad is delivered 100 times (100 impressions) and receives one click, then the clickthrough rate for the advertisement would be 1%.

### **1.3. Energy Savings Assistance Program Customer Outreach and Enrollment Update**

**1.3.1** Provide a summary of the Energy Savings Assistance Program outreach and enrollment strategies deployed this month.

#### **Ethnic and Mass Media Campaign**

Results from an ethnic and mass media campaign in November provided over 47,000 site visits and 1,205 application submissions. Overall, the campaign generated strong awareness for the CARE and ESAP programs. Nearly 29 million impressions<sup>3</sup> were served which produced over 52,000 clicks at a click through rate<sup>4</sup> (CTR) of 0.18%.

The second in-language campaign was sent to over 100,000 customers in SoCalGas' Chinese, Korean, Filipino, and Vietnamese communities by direct mail and resulted in over 1,800 customer leads. Nearly 1,500 Asian customers are estimated to be eligible for the Energy Savings Assistance Program.

#### **Energy Savings Assistance Program Bill inserts/onserts**

No bill insert/onsert campaigns were conducted during the month of January.

#### **Energy Savings Assistance Program Direct Mailings**

No direct mail campaigns were conducted during the month of January.

#### **Energy Savings Assistance Program Outbound Dialing**

There was no Automated Voice Messaging Campaign (AVM) conducted in January.

### **Energy Savings Assistance Program Web Activities**

In January, SoCalGas sent an electronic email to 25,103 customers in which

Customer Assistance program information was available to view. Additionally, 5,726 new customers with an email address were targeted to receive a welcome email from SoCalGas. The email blast to these customers included information about SoCalGas' assistance programs and encouraged customers to apply for CARE as well as ESAP's no-cost home improvements. For their convenience, a direct link to SoCalGas' on-line ESAP request (lead) form was imbedded in the email. As of January 31<sup>st</sup>, 563 customers completed the on-line English Energy Savings Assistance Program request form.

### **Customer Assistance Events and Public Affairs/Public Relations Activities for the CARE and Energy Savings Assistance Program.**

#### **.January 24, 2012 – State of the City Claremont**

SoCalGas' representatives from Customer Assistance and Public Affairs participated in the annual state of the city in Claremont. SoCalGas presented Customer Assistance Program information to reach out to the audience and inform them of programs that can assist neighbors and friends through the CARE and Energy Savings Assistance Program. Program informational brochures and videos were made available to the over 100 participants who attended the event.

## **1.4. Leveraging Success Evaluation, Including CSD**

**1.4.1** Please provide a status of the leveraging effort with CSD. What new steps or programs have been implemented? What was the result in terms of new enrollments?

There are no updates from leveraging with CSD for the month of January. SoCalGas will continue to monitor discussions between CSD, CPUC and other utilities for closer collaboration and leveraging with CSD.

SoCalGas continues its efforts to meet with various municipal utilities that provide electric and water services to customers in SoCalGas' service territory to identify opportunities to leverage one another's low-income energy efficiency programs in PY2012.

SoCalGas and the City of Riverside have completed a leveraging agreement that will allow customers residing in their overlapping service territories to benefit from SoCalGas' ESAP services and from the City of Riverside's service offerings during the same visit. As with previous agreements with municipal utilities, SoCalGas' ESAP contractors will install certain electric measures, and any eligible gas measures, so that customers are able to realize both gas and electric energy and bill savings. The City of Riverside will reimburse SoCalGas for the electric measures installed through this leveraging effort.

Imperial Irrigation District (IID) and SoCalGas are continuing to canvass their joint service territories for the ESAP leveraging agreement. In 2011, SoCalGas ESAP contractors treated 98 joint customers with program measures from both low-income programs.

In addition, SoCalGas and Burbank Water and Power (BWP) also continue to canvass joint territory and will report results accordingly.

SoCalGas and Eastern Municipal Water District (EMWD) have completed a leveraging agreement where EMWD provides a rebate to SoCalGas for every High Efficiency Clothes Washer installed within the two utilities' joint service territory under SoCalGas' ESAP. Initial installations under the

signed agreement began in December 2010 and will continue into 2012. As a result of this agreement, SoCalGas' ESAP has received rebates totaling more than \$120,500 for High Efficiency Clothes Washers installed in SoCalGas and EMWD joint service territory thus far.

**1.5. Workforce Education & Training**

**1.5.1** Please summarize efforts to improve and expand Energy Savings Assistance Program workforce education and training. Describe steps taken to hire and train low-income workers and how such efforts differ from prior program years.

SoCalGas continued its internal training programs which contribute to the goals of workforce development. SoCalGas provides two areas of training: 1) Enrollment and Assessment (E&A) and 2) Energy Savings Assistance Program Operations. The Year-to-Date results are shown in the following tables:

SoCalGas Skill-Level Test Results		
	January	YTD Total
Attended Testing	20	20
Passed Test	17	17
Pass Rate	85.0%	85.0%

After successful completion of the Skill Level Test, the potential outreach specialist attends a mandatory 5-day class which reviews the requirements for enrollment, assessment and in-home education.

SoCalGas Enrollment and Assessment Training		
	January	YTD Total
Attended Class	18	18
Passed Class	14	14
Badged	14	14
Census Attendees	2	2
Retention Rate	77.8%	77.8%

The 5-day class covers utility-specific items related to policies, security processes and overall customer service standards as well as for leveraging opportunities amongst other low-income programs. A final exam must be passed for an outreach specialist to be registered and receive a SoCalGas identification badge. The year-to-date total for badged outreach specialists for SoCalGas is 14. The classes are held at SoCalGas' Energy Resource Center located in Downey, California.

SoCalGas did not conduct any field operations training in January.

## 2. CARE Executive Summary

### 2.1. CARE Program Summary

2.1.1. Please provide CARE program summary costs.

CARE Budget Categories	Authorized Budget	Actual Expenses to Date	% of Budget Spent
Outreach	\$1,892,966	-\$112,857**	-6%
Proc., Certification and Verification	\$624,464	\$85,455	14%
Information Tech./Programming (1)	\$261,277	\$46,384	18%
Pilots	\$0	\$0	0%
Measurement and Evaluation	\$8,596	\$0	0%
Regulatory Compliance	\$118,460	\$16,609	14%
General Administration	\$302,482	\$76,158	25%
CPUC Energy Division Staff	\$85,750	\$6,388	7%
Cooling Centers (3)	\$0	\$0	0%
<b>Total Expenses</b>	<b>\$3,293,995</b>	<b>\$118,137</b>	<b>4%</b>
Subsidies and Benefits (4)	<b>\$67,950,825</b>	<b>\$17,219,807</b>	<b>25%</b>
<b>Total Program Costs and Discounts</b>	<b>\$71,244,819*</b>	<b>\$17,337,944</b>	<b>24%</b>

\* Six month Bridge Funding authorized in D.11-11-010.

\*\* Reflects a reversal of a 2011 yearend accrual still pending receipt of invoices expected later in February 2012 and a \$41,888 correction of a non-CARE expense in 2011.

2.1.2. Please provide the CARE program penetration rate to date.

CARE Penetration		
Participants Enrolled	Eligible Participants	Penetration rate
1,712,826	1,826,972	93.8%

## 2.2 Outreach

2.2.1 Discuss utility outreach activities and those undertaken by third parties on the utility's behalf. (For additional CARE Outreach see section 1.3.2.)

### **CARE Telephone Enrollments and Recertification**

SoCalGas continued with its monthly campaign to call existing CARE customers who are due to recertify their eligibility. Over 15,000 customers were called, and 3,509 customers recertified their eligibility. (When possible, SoCalGas also emails customers who need to recertify; the recertification email campaign is described below.)

### **CARE Web Activity & Enrollments**

During January 3,732 customers used SoCalGas' online form on its website to enroll in the CARE program. Moreover, SoCalGas references its website in virtually all communications. In addition, because more and more SoCalGas customers have provided the company with their email addresses, SoCalGas is increasing its email communications. Links to the company website are prominent in such emails.

SoCalGas sent an email to 8,387 customers who were due to recertify their eligibility in the program (and who had previously supplied the company with their email addresses). The email contains a link to the company website where the customer can recertify eligibility in the program. During January 1, 414 existing customers re-certified their eligibility through the company website.

The winter media campaign was Internet based and "linked" visitors back to the SoCalGas web site. (This is discussed below in "CARE Mass Media Campaign.) Although January web metrics are not yet available for the company website (socialgas.com), they are available for December and November, and in each of those months Customer Assistance is either one of the top five pages visited or one of the top five search topics.

### **CARE Third-Party Enrollments & Outreach**

To reach customers who are “missed” by traditional outreach (bill inserts, phone campaigns, direct mail, and so on), SoCalGas’ employs a third-party contractor to canvass targeted neighborhoods to enroll customers in CARE. The canvassers are bilingual (English and Spanish). During the month of January, door-to-door outreach returned applications for 2,110 customers; 1,691 were subsequently enrolled.

Additionally, as a result of an agreement between SoCalGas and 211 LA County, 211 continues to refer interested, potentially eligible callers to SoCalGas’ CARE program as well as promote CARE and other SoCalGas assistance programs at select events

### **CARE Direct Mail Activity and Enrollments**

There were no direct mailings during the month of January. Direct mail campaigns will resume in February.

### **CARE Bill Inserts**

There was no bill insert in January. The next scheduled bill insert will be in July; this bill insert will inform customers of the new eligibility guidelines.

### **Outreach by Field Employees**

During SoCalGas’ gas furnace pilot relighting season (which began in late October), field employees began distributing a bilingual (English/Spanish) leave-behind pamphlet detailing its Customer Assistance programs.

During this season, field employees will leave the pamphlet with every customer they have visited. Field employees enter approximately 500,000 premises during this period, and approximately 500,000 pamphlets will have been provided to the operating bases for distribution by spring 2012.

## **CARE Mass Media Campaign**

There was no mass media campaign during the month of January. The last mass media campaign ran from November 7 to December 4, and preliminary metrics are now available. More than 29 million “impressions” were served on the Internet.<sup>3</sup> 52,000 users actually *clicked on* the “impressions,” however; and 47,000 customers ultimately *visited* the SoCalGas website from this campaign. Metrics from this campaign will be used to tailor 2012 mass media tactics.

**2.2.2.** Describe the efforts taken to reach and coordinate the CARE program with other related programs to reach eligible customer.

To ensure continued increases in CARE enrollments and to retain customers already participating in CARE, SoCalGas shares customer enrollment information with other utilities such as Southern California Edison, San Diego Gas & Electric, Pacific Gas and Electric, and the Los Angeles Department of Water and Power.

During the month of January, 5,471 customers were enrolled in SoCalGas’ CARE program as a result of inter-utility data sharing activities.

Additionally,

CARE shares data with internal programs such as SoCalGas’ ESAP and the Gas Assistance Fund. Intra-utility efforts in January, generated 2,170 CARE enrollments.

---

<sup>3</sup> An “impression” is a measure of the number of times an ad is displayed on a page, whether or not it is clicked. Each time an ad displays on a site, it is counted as an impression.

Coordinating the CARE program with other related low-income programs not only results in higher program participation rates, it also helps increase Post Enrollment Verification (“PEV”) activities when customer information is shared with programs such as LIHEAP. Since LIHEAP requires upfront proof of income and is a qualifying Categorically Eligible program, once CARE receives LIHEAP customer data, those customers are considered automatically eligible and their “pre enrollment verification” is used by SoCalGas to meet CARE’s PEV requirements. As a result of leveraging activities during January, 2012, 1,002 LIHEAP customers were enrolled in SoCalGas’ CARE program.

### **2.3 CARE Recertification Complaints**

SoCalGas received one recertification complaint during January. The customer claimed that he did not receive his recertification application, causing his discount to be terminated. SoCalGas was able to satisfactorily resolve the complaint by recertifying the customer and agreeing to reinstate his CARE discount from the date his CARE participation was terminated.

20	<sup>1</sup> Enrollments via data sharing between the IOUs.																		
21	<sup>2</sup> Enrollments via data sharing between departments and/or programs within the utility.																		
22	<sup>3</sup> Enrollments via data sharing with programs outside the IOU that serve low-income customers.																		
23	<sup>4</sup> One-E-App is a pilot program set up by The Center to Promote Healthcare Access (the Center) and PG&E. The pilot will occur within two PG&E counties and looks to implement a strategy of automatic enrollment for low-income customers into the CARE program based on the customers' applications or reapplications for related low-income health and social welfare services. (e.g. MediCAL, Healthy Families, CALKids, etc.) The goal is to develop another means by which low income families can be introduced into the CARE program and, depending on the success of the pilot, possibly expand this pilot to other counties within PG&E's territory as well as to the other IOUs.																		
24	<sup>5</sup> Not including Recertification.																		
25	<sup>6</sup> Recertifications completed regardless of month requested.																		
26	<sup>7</sup> The drop offs include self-declined applications, ineligible applications and closed CARE accounts.																		
27	Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.
