Sounds good.

Jim- Please let Richard know that the CPUC is happy to participate at its meetings or make a presentation if so desired, but want to respect their staffing constraints and interests.

I'll send him a similar note.

Thanks.

Michelle

Michelle

Thank you for reaching out. I have attended all of the C/CAG meetings and given a report to the board during Public Comment. In addition, I have a standing monthly meeting with C/CAG Executive Director Richard Napier. My monthly meeting with Richard is next Monday, during which I plan to discuss doing a presentation at the May meeting on all of the transmission gas work that we have planned for this year. The April C/CAG meeting is a board retreat, where the board sets the agenda for the year and I hope to have Richard plug in additional PG&E presentations where appropriate.

Being the Congestion Management Agency for the County, C/CAG has a great deal of work for a relatively small staff. They have also committed a lot of resources to the Climate Action Plan Template that they are developing. I appreciate your offer to assist with getting on the C/CAG agenda. I don't feel as though C/CAG has been putting us off as much as the staff has

been respectful of the Board's limited time and the majority of the Board is happy with my short monthly reports. In fact, at the Hillsborough Council meeting Monday night Mayor Tom Kasten reported to his council that I have been attending C/CAG meetings and that he appreciates the open-line of communication that has been established.

I would be happy to let you both know how my meeting with Rich Napier goes on Monday and again appreciate all of your assistance.

Sincerely,

**Subject:** Communications with C/CAG

Laura- I'm blanking out on the Peninsula rep's name for PG&E, the one who has been communicating with C/CAG and trying to get on an agenda. Can you send me his name/contact information?

Terry Nagel from Burlingame is continuing to say that there is insufficient outreach happening. My understanding was that PG&E had been trying to get on the agenda but has had no luck, so I'd like to take a shot.
