Jane- I don't have a fall letter (although there could be one), what I was referring to was the early on letters.

These laid out the questions we asked and PG&E's commitments related to lab testing at the time.

Julie/Michelle, do you have handy the letter you last sent PG&E on the procedure for removing, handling, and transporting samples for testing. I have a 7/15/11 letter from Julie --- I thought during our meeting today, you mentioned a Fall letter also.

I will try to get a standardized report and test results that are finalized to you late next week, and a process to give you regular updates.

Thanks and have a great weekend,

Jane
