Subject: Pipe cut-outs and testing report - PG&E

Michelle, Julie from our meeting last week Friday (3/23) --- I reviewed the report that we will be providing you on a regular basis, including test results, for pipe cutouts from our hydro tests, as well as cutouts for cause. I asked the team to provide additional details this morning, and hope to have the report to you by this Wednesday.

Thanks for your patience on this report – we have now established a process to provide this information to you on an ongoing basis.

Jane
