Subject: AMI status update?

Hope you are doing well. I would like to check into the status of doing a quarterly update on the SM deployment. If you recall, per Commission decisions, PG&E is to provide quarterly reports. Based on prior agreement with Energy Division, two of these were to be in the form of semi-annual and annual reports, with the other two in the form of presentations.

I believe we may be overdue on the required update. In scheduling the next update, please consider including the following topics, besides the usual deployment update

- SM opt-out
- HAN pilot and plans
- MyEnergy activity
- SM-based DSM programs (PTR, NEM, rates)

Thanks.
