Meredith

Not to worry--this isn't your fault. If the audio problems get resolved, send me an email and I will call in. Happy to arrange a meeting to discuss projects. When I get your potential dates, I will set up a room, etc.

I'm really sorry. The library staff is going to try to fix at the break. They think it is the cord. The electric presentation starts right after the break at 10:30. I will email you if it is fixed.

In any event, we would like to schedule a meeting with you to review the projects currently in construction and our forecast of work for 2012 in more detail. I will also note any questions/comments from the other agencies that come up in this meeting relating to the electric work and we can discuss. I will send you some potential dates and times.

Again I'm really sorry about today.

No, I just hung up. The weird background sounds and low volume of the speaker made it impossible to hear what is going on.

Hi Mary Jo,

I'm really sorry about the phone glitches. Are you able to hear the speakers and questions?

Thanks,
Meredith
