Subject: RAM AL template follow-up

Hi Meredith,

I wanted to reply to two outstanding concerns from our call earlier this week re: RAM AL template.

I believe it was Redacted who had a question about what we were seeking in Section V. D. – in particular she asked about this language:

Discussion of how these contracts fit within IOU's renewables and overall procurement needs. Compare pricing and terms and conditions to other procurement programs (i.e., market, RPS RFP, SPVP, FITs, PURPA, etc.)

What we're really seeking here is for the utility to provide us with a qualitative discussion of its allocation of risk vs. value across various programs. The pricing and NMV calculations are of the most importance.

Also, on the issue of the Annual Written RAM Report that you asked me about. We agree that it makes sense to file it after the Program Forum. And on the issue of whether or not there exists a template for that, the answer is that one does not exist. SCE provided an outline of the RAM Advice Letter, which served as the basis for the template we adopted and sent to each IOU. Would PG&E be able to develop a similar template for the RAM Annual Report? We would be happy to review it, modify it, and send it to the other IOUs so that we have a consistent structure for the report.

Let me know.

Thanks,

Adam
