Subject: RE: "DAILY FIELD WELD SUMMARY REPORT" form

Ben,

The attachment contains suggested edits (in red) to help clarify the form and example. One other concern I have is that the form doesn't capture the name(s) or reference(s) to the weld inspector(s) for the welds. I believe this is important information necessary to cross reference the complete weld, inspection, and radiograph testing process.

Please let me know if you have any questions.

Thanks, Ben.

Sunil

Hi Sunil:

Per our recent discussion, here is the weld tracking form that PG&E is in the process of implementing to improve our process.
