Subject: FW: Closing the Loop on the Staff Citation; Cost of Capital Filings Set for Tomorrow

FYI

PCG: Closing the Loop on the Staff Citation; Cost of Capital Filings Set for Tomorrow

Estimate Change

- **Today, the CPUC Board reaffirmed the Administrative Law Judge's (ALJ) directive on the \$16.8 million citation, rejecting PG&E's appeal.** Although the amount of the fine seems small relative to the size of PG&E, it is significant for a fine (we believe in the top 5 utility penalties in state history), and it sets a negative regulatory precedent which is the more important takeaway. We are concerned that this new fast-tracking citation program could lead to record-level fine assessments for each violation, which could cause investors to consider a valuation discount for future gas pipeline infrastructure investment to reflect unforeseen heavy-handed penalties in the future, particularly in a San Bruno-charged environment. Remember, this was the first citation issued under the CPUC Staff's new found authority to issue citations that are more minor in nature. See our note commenting on the citation when it was first issued for more details, <https://www.citivelocity.com/geo/pdf/SNAOYFN5.pdf>.

- **Separately, we are tweaking our 1Q12 operating EPS estimate ahead of the earnings call.** We are lifting our 1Q12 EPS estimate to \$0.76/share from \$0.69/share to more accurately reflect seasonality factors. This minor tweak is not a reflection of any change to our longer term earnings outlook for the Company; our annual EPS estimates remain unchanged at \$3.16 / 3.00 / 3.43 per share.

- **Cost of Capital filings for the California electric utilities will be filed tomorrow.** As a reminder, the cost of capital proceeding will set ROEs and capital structures for three years beginning in 2013. In our model, we currently assume PG&E will earn a 10.4% return on equity in 2013 and 2014. It should be noted that the ROEs requested by the utilities will likely be materially higher than the ROE assumed in our model.

This product has been designed for online delivery to enable easy access to research via the links provided.

For analyst certification, Important Disclosures and non-US analyst disclosures relating to excerpts of research already published, see Appendix A-1 of the excerpted research report, which can be accessed via the hyperlink provided.

Citi Investment Research & Analysis (CIRA) is a division of Citigroup Global Markets Inc. (the "Firm"), which does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the Firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision.

With the exception of our product that is made available only to Qualified Institutional Buyers (QIBs), CIRA concurrently disseminates its research via proprietary and non-proprietary electronic distribution platforms. Periodically, individual CIRA analysts may also opt to circulate research posted on such platforms to one or more clients by email. Such email distribution is discretionary and is done only after the research has been disseminated via the aforementioned distribution channels. CIRA simultaneously distributes product that is limited to QIBs only through email distribution.
