Subject: CORRECTION, RE: PG&E Hydrostatic Test Schedule Overview 120417.xlsx

Team,

Please note that this particular version of the hydrostatic test program schedule was not confidential and should not be considered subject to Section 583 as it does not contain any sensitive non-public information about possible generator outages. Any future versions of the hydrostatic test program schedule that contain sensitive non-public information will be provided under Section 583. We apologize for the oversight of initially designating this version as subject to Section 583.

Best,

[Redacted]
