Subject: RE: Urgent Request to Confer on Pipeline Capacity Contract Renewals

John,

PG&E should first provide us with its updated final recommendations, including the information requested by ED on the pros and cons of the different options.

On Point 5. DRA is still reviewing the draft MOU. [Redacted]

Subject: RE: Urgent Request to Confer on Pipeline Capacity Contract Renewals

Hi, Pearlie,

Thank you for stating DRA's position. We appreciate your prompt response which will help us move forward. However, we ask for clarification of a few additional points:

1) Can DRA also support a [Redacted]

That option, although slightly more expensive, provides additional flexibility in the near term enabling PG&E, DRA and other stakeholders to consider realignment of core capacity holdings. During our conference call, Dave Peck expressed an interest in evaluating our pipeline portfolio. We are also interested in potential re-alignment, if reasonable, and of course, subject to approval by the Commission. Allowing the entire PG&E SW portfolio to expire by next summer could provide a unique opportunity to address potential changes.

2) Your email only addressed the Kern River offer. Will DRA recommend the [Redacted]

If not, PG&E will be short by [Redacted] and by next winter we will be out of compliance with D.04-09-022. Additionally, by not renewing now, we will be waiving our [Redacted]

4) Does DRA agree with the [Redacted] as outlined in our presentation?

5) In addition, does DRA accept the modifications to the MOU on the [Redacted] to incorporate

as we discussed last Monday?

We believe that final agreement on the benchmark is a necessary precursor to moving forward with the

Thanks again for your prompt email response. Your answers to these additional questions will help us finalize our recommendation, which we hope to be able to share with you tomorrow.

Hi Redacted

At this time DRA can only express support for the Redacted on the Redacted as described to us.

DRA looks forward to your updated proposal per discussion in yesterday's meeting.

Thanks,

Pearlie Sabino

Hi [Redacted]

Do you have any additional information regarding these offers and also any thoughts on how the CPIM benchmark might be modified to reflect the possibility of Kern capacity?

Thanks,

Pearlie
