Subject: CESA comments - Energy Storage Application Priorities

Dear Art and Alope

Thanks for convening another meeting to discuss energy storage application priorities on 5/11. As requested, attached please find additional comments/feedback from CESA. I've attached a redline to Alope's latest version, as well as clean version with comments and a clean version with out comments.

We are additionally preparing a longer list of example energy storage projects and should have that to you all in advance of our meeting on 5/11. As always, please don't hesitate to call if you'd like to discuss further.

Kind regards

Janice
