**ADVICE LETTER 2309-E-A  
(U 902-E)**

**PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA**

**SUBJECT: SUPPLEMENT TO ADVICE LETTER REQUESTING APPROVAL OF  
RENEWABLE POWER PURCHASE WITH MESA WIND POWER  
CORPORATION**

**I. INTRODUCTION**

**A. PURPOSE OF THE SUPPLEMENT**

San Diego Gas & Electric Company (“SDG&E”) makes this supplemental filing in order to update original Advice Letter 2309-E (the “AL”), filed December 22, 2011, to include an Amended and Restated Power Purchase Agreement (“PPA”) with Mesa Wind Power Corporation (“Mesa Wind”) amending, restating, and superseding in its entirety, that certain Power Purchase Agreement dated November 2, 2011. This Amended and Restated PPA more clearly states the intent of the parties that the purchase of renewable energy from the project will involve delivery of and payment for the green attributes upon receipt of California Public Utilities Commission (the “Commission” or the “CPUC”) approval of the AL. Prior to approval by the CPUC, the product to be delivered and sold by Seller, and received and purchased by Buyer, will be energy-only (with the associated green attributes being delivered upon Commission approval of the AL). The obligation of Buyer to purchase and Seller to sell green attributes from the Project is subject to (i) obtaining CPUC approval of the AL; and (ii) a CPUC finding that all procurement pursuant to the PPA, including all generation delivered prior to Commission approval of the AL where the associated green attributes are delivered at the time of Commission approval of the AL, is procurement that meets the criteria of, and will be counted in, the portfolio content category described in Public Utilities Code Section 399.16(b)(1).

General Order 96-B provides that “[t]he filing of a supplement . . . does not automatically continue or reopen the protest period or delay the effective date of the advice letter.”<sup>1</sup> The Energy Division may on its own motion or at the request of any person, issue a notice continuing or reopening the protest period. Any new protest, however, “shall be limited to the substance of the supplement . . .” SDG&E submits that the supplemental information provided herein is non-controversial in nature and that reopening of the protest period is not warranted. Accordingly, SDG&E respectfully requests that the protest period remain closed and that no further delay be introduced to disposition of Advice Letter 2309-E, as supplemented.

## V. PROCEDURAL MATTERS

### A. ADDITIONAL REQUESTED RELIEF

## Public Utilities Commission

The PPA, as amended and restated, is conditioned upon “CPUC Content Category Approval”; the PPA Article One: General Definitions states, “*“CPUC Content Category Approval” means a final and non-appealable order of the CPUC, without conditions or modifications unacceptable to the Parties, or either of them, which finds that any procurement pursuant to this Agreement, including procurement of any Green Attributes associated with generation prior to the Condition Subsequent Satisfaction Date, is procurement that meets the criteria of, and will be counted in, the portfolio content category described in Public Utilities Code Section 399.16(b)(1) for purposes of determining Buyer’s compliance with any obligation that it may have to procure eligible renewable energy resources pursuant to the California Renewables Portfolio Standard (Public Utilities Code Section 399.11 et seq.), Decision 11-12-052, or other applicable Law. CPUC Content Category Approval will be deemed to have occurred on the date that a CPUC decision containing such findings becomes final and non-appealable.*”

In addition to the relief requested in the original Advice Letter filing, SDG&E respectfully requests that the Commission include an additional finding in its Resolution approving the agreement as amended and restated, as follows:

4. Issuance of a finding that all procurement pursuant to this Agreement, including all generation delivered prior to Commission approval of the AL where the associated green attributes are delivered at the time of Commission approval of the AL, is procurement that meets the criteria of, and will be counted in, the portfolio content category described in Public Utilities Code Section 399.16(b)(1) for purposes of determining Buyer’s compliance with any obligation that it may have to procure eligible renewable energy resources pursuant to the California Renewables Portfolio Standard (Public Utilities Code Section 399.11 et seq.), Decision 11-12-052, or other applicable Law.

### DECLARATION OF MAURENE BISHOP REGARDING CONFIDENTIALITY OF CERTAIN DATA

**BEFORE THE PUBLIC UTILITIES  
COMMISSION OF THE STATE OF CALIFORNIA**

**DECLARATION OF F. MAURENE BISHOP  
REGARDING CONFIDENTIALITY OF CERTAIN DATA**

I, F. Maurene Bishop, do declare as follows:

1. I am an Energy Contracts Originator for San Diego Gas & Electric Company (“SDG&E”). I have reviewed Supplemental Advice Letter 2309 –E-A, requesting approval of a Amended and Restated Power Purchase Agreement with Mesa Wind Power Corporation dated March 30, 2012, (with attached updates to the original confidential and public appendices), (“Supplemental Advice Letter”). I am personally familiar with the facts and representations in this Declaration and, if called upon to testify, I could and would testify to the following based upon my personal knowledge and/or belief.

2. I hereby provide this Declaration in accordance with D.06-06-066, as modified by D.07-05-032, and D.08-04-023, to demonstrate that the confidential information (“Protected Information”) provided in the Supplemental Advice Letter submitted concurrently herewith, falls within the scope of data protected pursuant to the IOU Matrix attached to D.06-06-066 (the “IOU Matrix”).<sup>1/</sup> In addition, the Commission has made clear that information must be protected where “it matches a Matrix category exactly . . . or consists of information from which that information may be easily derived.”<sup>2/</sup>

3. I address below each of the following five features of Ordering Paragraph 2 in D.06-06-066:

---

<sup>1/</sup> The Matrix is derived from the statutory protections extended to non-public market sensitive and trade secret information. (See D.06-06-066, *mimeo*, note 1, Ordering Paragraph 1). The Commission is obligated to act in a manner consistent with applicable law. The analysis of protection afforded under the Matrix must always produce a result that is consistent with the relevant underlying statutes; if information is eligible for statutory protection, it must be protected under the Matrix. (See *Southern California Edison Co. v. Public Utilities Comm.* 2000 Cal. App. LEXIS 995, \*38-39) Thus, by claiming applicability of the Matrix, SDG&E relies upon and simultaneously claims the protection of Public Utilities Code §§ 454.5(g) and 583, Govt. Code § 6254(k) and General Order 66-C.

<sup>2/</sup> See, *Administrative Law Judge’s Ruling on San Diego Gas & Electric Company’s April 3, 2007 Motion to File Data Under Seal*, issued May 4, 2007 in R.06-05-027, p. 2 (emphasis added).

- That the material constitutes a particular type of data listed in the Matrix,
- The category or categories in the Matrix to which the data corresponds,
- That it is complying with the limitations on confidentiality specified in the Matrix for that type of data,
- That the information is not already public, and
- That the data cannot be aggregated, redacted, summarized, masked or otherwise protected in a way that allows partial disclosure.<sup>3/</sup>

4. SDG&E's Protected Information: As directed by the Commission, SDG&E demonstrates

in table form below that the instant confidentiality request satisfies the requirements of D.06-06-066:<sup>4/</sup>

<b>Data at issue</b>	<b>D.06-06-066 Matrix Requirements</b>	<b>How moving party meets requirements</b>

	Affirm that the IOU is complying with the limitations on confidentiality specified in the Matrix for that type of data	In accordance with the limitations on confidentiality set forth in the IOU Matrix, SDG&E requests that this information be kept confidential for three years.
	Affirm that the information is not already public	SDG&E has not publicly disclosed this information and is not aware that it has been disclosed by any other

<sup>3/</sup> D.06-06-066, as amended by D.07-05-032, *mimeo*, p. 81, Ordering Paragraph 2.

<sup>4/</sup> See, *Administrative Law Judge's Ruling on San Diego Gas & Electric Company's Motions to File Data Under Seal*, issued April 30 in R.06-05-027, p. 7, Ordering Paragraph 3 ("In all future filings, SDG&E shall include with any request for confidentiality a table that lists the five D.06-06-066 Matrix requirements, and explains how each item of data meets the matrix").

<sup>5</sup> The confidential information referenced has a **RED** font color / has a red box around it in the confidential appendices

		party.
	Affirm that the data cannot be aggregated, redacted, summarized, masked or otherwise protected in a way that allows partial disclosure.	In order to include as much detail as possible, SDG&E has provided specific contract terms instead of summaries.

5. As an alternative basis for requesting confidential treatment, SDG&E submits that the Amended and Restated Power Purchase Agreement enclosed in the Supplemental Advice Letter is material, market sensitive, electric procurement-related information protected under §§ 454.5(g) and 583, as well as trade secret information protected under Govt. Code § 6254(k). Disclosure of this information would place SDG&E at an unfair business disadvantage, thus triggering the protection of G.O. 66-C.<sup>117</sup>

6. Public Utilities Code § 454.5(g) provides:

The commission shall adopt appropriate procedures to ensure the confidentiality of any market sensitive information submitted in an electrical corporation’s proposed procurement plan or resulting from or related to its approved procurement plan, including, but not limited to, proposed or executed power purchase agreements, data request responses, or consultant reports, or any combination, provided that the Office of Ratepayer Advocates and other consumer groups that are nonmarket participants shall be provided access to this information under confidentiality procedures authorized by the commission.

7. General Order 66-C protects “[r]eports, records and information requested or required by the Commission which, if revealed, would place the regulated company at an unfair business disadvantage.”

<sup>117</sup> This argument is offered in the alternative, not as a supplement to the claim that the data is protected under the IOU Matrix. California law supports the offering of arguments in the alternative. See, *Brandolino v. Lindsay*, 269 Cal. App. 2d 319, 324 (1969) (concluding that a plaintiff may plead inconsistent, mutually exclusive remedies, such as breach of contract and specific performance, in the same complaint); *Tanforan v. Tanforan*, 173 Cal. 270, 274 (1916) (“Since . . . inconsistent causes of action may be pleaded, it is not proper for the judge to force upon the plaintiff an election between those causes which he has a right to plead.”)

8. Under the Public Records Act, Govt. Code § 6254(k), records subject to the privileges established in the Evidence Code are not required to be disclosed.<sup>6/</sup> Evidence Code § 1060 provides a privilege for trade secrets, which Civil Code § 3426.1 defines, in pertinent part, as information that derives independent economic value from not being generally known to the public or to other persons who could obtain value from its disclosure.

9. Public Utilities Code § 583 establishes a right to confidential treatment of information otherwise protected by law.<sup>7/</sup>

10. If disclosed, the Protected Information could provide parties, with whom SDG&E is currently negotiating, insight into SDG&E's procurement needs, which would unfairly undermine SDG&E's negotiation position and could ultimately result in increased cost to ratepayers. In addition, if developers mistakenly perceive that SDG&E is not committed to assisting their projects, disclosure of the Protected Information could act as a disincentive to developers. Accordingly, pursuant to P.U. Code § 583, SDG&E seeks confidential treatment of this data, which falls within the scope of P.U. Code § 454.5(g), Evidence Code § 1060 and General Order 66-C.

11. Developers' Protected Information: The Protected Information also constitutes confidential trade secret information of the developer listed therein. SDG&E is required pursuant to the terms of its Amended and Restated Power Purchase Agreement, to protect non-public information. Some of the Protected Information in the original Power Purchase Agreement, and my supporting declaration (including confidential appendices), relates directly to viability of the respective projects. Disclosure of this extremely sensitive information could harm the developers' ability to negotiate necessary contracts and/or could invite interference with project development by competitors.

---

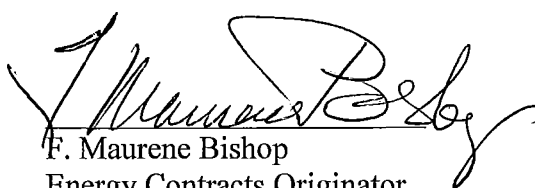

<sup>6/</sup> See also Govt. Code § 6254.7(d).

<sup>7/</sup> See, D.06-06-066, *mimeo*, pp. 26-28.

12. In accordance with its obligations under its Amended and Restated Power Purchase Agreement and pursuant to the relevant statutory provisions described herein, SDG&E hereby requests that the Protected Information be protected from public disclosure.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct.
