Advice No. 4369  
(U 904 G)

Public Utilities Commission of the State of California

**Subject: Revision of the Income-Eligibility Guidelines, and Submission of Revised Application Forms and Instructions for the CARE Program**

Southern California Gas Company (SoCalGas) hereby submits for filing with the California Public Utilities Commission (Commission) revisions to its Schedule No. G-CARE, California Alternate Rates for Energy (CARE) Program, and the associated tariff forms, applicable throughout its service territory, as shown on Attachment B.

**Purpose**

This filing revises SoCalGas' Schedule No. G-CARE and application forms and instructions to reflect the increased income-eligibility guidelines used to qualify individuals or households for the CARE program. This filing is made in compliance with Public Utilities (PU) Code Section 739.1(b)(1)<sup>1</sup> and Ordering Paragraph (OP) 3 of Resolution (Res.) E-3524, adopted February 19, 1998.<sup>2</sup>

**Background**

The Energy Division has determined that, pursuant to Res. E-3524 and PU Code Section 739.1(b)(1), effective immediately beginning with the 2012-2013 income updates, the 2012

---

<sup>1</sup> The Commission shall establish a program of assistance to low-income electric and gas customers with annual household incomes that are no greater than 200 percent of the federal poverty guideline levels, the cost of which shall not be borne solely by any single class of customer. The program shall be referred to as the California Alternate Rates for Energy or CARE program. The Commission shall ensure that the level of discount for low-income electric and gas customers correctly reflects the level of need.

<sup>2</sup> Res. E-3524 authorizes the energy utilities to change the income-eligibility guidelines for the CARE program pursuant to a communication issued by the Director of the Energy Division by May 1st of each year, with tariff revisions to be filed and become effective June 1st of each year.

Federal Poverty Guidelines will be used to calculate and update the annual CARE program and Energy Savings Assistance (ESA) program income limits.

Pursuant to a notice dated March 15, 2012, from the Director of the Energy Division, SoCalGas was provided with the new CARE program and ESA program income-eligibility levels to be effective from June 1, 2012 through May 31, 2013. This notice further directs the energy utilities to file revised tariffs with the Energy Division reflecting the new income levels by May 14, 2012.

### **Tariff Revisions**

Included with this filing are the updated Schedule No. G-CARE and CARE application instructions and forms to reflect the revised income guidelines. The income limits for household with 1-2 persons are now listed separately and will no longer be consolidated. Additionally, income limits are now displayed for household sizes of 1 to 8 persons in alignment with actual Federal Poverty Guidelines.

This filing includes 11 application forms: qualified agricultural employee housing; qualified nonprofit group living facilities; general purpose bilingual direct mail; individually metered self-certification in 13 languages; individually metered self-recertification in five languages; bilingual form for the Capitation program; individually metered post-enrollment verification in five languages; sub-metered bilingual post-enrollment verification, sub-metered bilingual self-certification; sub-metered bilingual self-recertification; and bilingual bill insert.

NON-PROFIT GROUP LIVING FACILITY CUSTOMERS

13. Eligibility Criteria: In order for the customer to be eligible for the CARE discount, and to be considered a qualified non-profit group living facility, each of the following provisions must be met:

a. The facility must certify that it is one of the following: a homeless shelter, women's shelter, transitional housing, a short- or long-term care facility, or a group home for physically or mentally disabled persons.

13. Eligibility Criteria (Continued)

b. The facility must provide a copy of its IRS Nonprofit Tax ID Form No. 501(c)(3) and state business license, conditional use permit or other proof satisfactory to the Utility. Separately metered satellite facilities in the name of the licensed facility, where 70% of the energy supplied is for residential purposes, are also eligible.

c. With the exception of homeless shelters, all facilities must certify that 100% of the residents of the facility individually meet the CARE eligibility standard for a single-person household. A caregiver who lives in the facility is not a resident for purposes of determining eligibility. A single-person household is eligible for the CARE discount if total annual gross income does not exceed \$22,340.

d. With the exception of homeless shelters, all facilities must certify that they provide a "special needs" social service, such as meals, job development training, or rehabilitation programs, in addition to lodging for residents who qualify for the CARE discount.

e. Homeless shelters must certify that they provide at least six beds per day or night for a minimum of 180 days each year for persons who have no alternative residence.

f. The facility must certify that at least 70% of the energy supplied to the facility's premises is used for residential purposes.

g. Government-owned facilities are not considered qualified non-profit group living facilities, unless they are a qualified non-profit homeless shelter as defined above.

14. Certification of Benefits: At the time of annual renewal of eligibility, each facility is required to certify that monies saved through the CARE discount have benefited the residents of the facility who qualify for the CARE discount. Certification shall be made under penalty of perjury and include a quantification of funds saved annually due to the CARE discount, and identify how those funds have been spent for the benefit of the qualifying residents.
