Subject: RE: Cost Quantification Task

Good morning Jason,

Thank you for your email. The IOU's have a call today to discuss submitting our final proposal
to you for review. I will circle back with you this afternoon to update you.

Thank you,

Shivani Ballesteros

Subject: Cost Quantification Task

Hi All,

I am responsible for determining a standard methodology for the IOUs to satisfy the Cost Quantification (6.10 Cost Quantification, p. 14) requirement as directed in the 2012 RPS ACR (http://docs.cpuc.ca.gov/efile/RULINGS/163513.pdf). As required, the IOUs shall "coordinate with the Commission's Energy Division Staff to provide responses using a standardized methodology and format. Responses should be non-confidential to the greatest extent possible."

I understand that the IOUs have already been proactive and are collaborating on a standard methodology to satisfy this requirement. Therefore, I believe the best approach to take is to allow the IOUs to provide a standard methodology which I will review along with folks in the rates group.

That said, I need to receive the recommended methodologies for Items 1, 2, and 3 (p. 15) in relatively short order. Can you please check with your respective teams and find out 1) who will be submitting the final proposal, and 2) what is the timing for the submittal of the proposal. I will then co-ordinate with the team responsible for submitting the proposal.

Thanks All,

Jason
