Arthur, Alope,

I have a conflicting meeting in Walnut Creek today and will not be able to join the brainstorming session. Daidipya and Jason will be attending for PG&E. Jason will be joining my team on June 1 and will be covering storage. He currently works in our ISO group.

Thanks again for facilitating these discussions. We have found this effort to be a very productive way to move the proceeding forward.

Meredith

Hello, everyone,

Attached please find some materials in advance of the May 11 brainstorming session for R10-12-007:

- a. Agenda
- b. Staff Revised Matrix
- c. Sheet of utility comments on their recommendations for discussion
- d. Sheet of real-world projects suggested to base Use Cases upon.

Please note: **We'll be starting at 9:30 am** and although we have the Room 5100 booked all day to 4 pm, the agenda foresees closure at about 2 pm, to allow early retreat for long-distance participants. As suggested, we expect to work through lunch, but will keep that to some less formal discussion issues. Will entertain suggestions for how to accommodate lunch.

I have not yet gotten telephone bridge information, but we'll get that out on Thursday, for anyone who cannot attend in person.

Any questions? Please let me know.

I will be on the road tomorrow, Wed. May 9, back in office Thursday May 10.

Looking forward to another productive session,

Arthur O'Donnell
