Subject: RE: Annual Meeting remarks

Read Chris' speech, it mentions the dashboard as a public reporting (external) of metrics and achievements. I think we are talking about 2 different things.

Certainly. Didn't mean to exclude. We've always seen CPSD as a slightly different animal – that bites ;-). Can you send me Hagan's email. I will include you both. Dashboards are held with employees (primarily in the field) when something important needs to be communicated about safety, procedures, techniques, etc. They are like a briefing before the crews are sent out to work. We do them all the time. I could probably get you a list of them if you'd like.

Fyi, can you keep me in the loop on stuff like this until such time as the negotiations are done? Also, probably should include General Hagan on your list for this kind of stuff at some point.

Also, what is this dashboard thing? First I'm hearing of it...

All,

FYI. Attached are the prepared remarks by Tony and Chris from this morning's Annual Meeting. Roger
