**MOTION OF SAN DIEGO GAS & ELECTRIC COMPANY
(U 902 E) FOR LEAVE TO FILE UNDER SEAL THE UNREDACTED
VERSION OF ITS 2012 DRAFT RENEWABLES PORTFOLIO
STANDARD PROCUREMENT PLAN AND RELATED APPENDICES**

Pursuant to Rule 11.4 of Rules of Practice and Procedure of the California Public Utilities Commission (the “Commission”) and D.06-06-066, *et seq.*, San Diego Gas & Electric Company (“SDG&E”) respectfully submits this motion for leave to file under seal the unredacted version of its 2012 Draft Renewables Portfolio Standard Procurement Plan and related appendices (together, the “Plan”), filed concurrently herewith.

Public Utilities Code § 454.5(g) requires the Commission to protect from disclosure all “market sensitive information submitted in an electrical corporation's proposed procurement plan.” In D.06-06-066, *et seq.*, the Commission adopted rules governing confidentiality of certain categories of electric procurement data routinely submitted to the Commission by investor owned utilities (“IOUs”) and energy service providers (“ESPs”). The Commission established two matrices – one applicable to IOUs, the other to ESPs – setting forth categories and sub-categories of data and providing a confidentiality designation for each.^{1/}

To the extent information matches a Matrix category, it is entitled to the protection the Matrix provides for that category of information. In addition, the Commission has made clear that information must be protected where “it matches a

^{1/} See, D.06-06-066, as amended by D.07-05-032, *mimeo*, Appendices 1 and 2.

Matrix category exactly . . . ***or consists of information from which that information may be easily derived.***^{2/} In order to claim the protection afforded by the relevant Matrix, the party seeking confidential treatment must establish:

- 1) That the material it is submitting constitutes a particular type of data listed in the Matrix,
- 2) Which category or categories in the Matrix the data correspond to,
- 3) That it is complying with the limitations on confidentiality specified in the Matrix for that type of data,
- 4) That the information is not already public, and
- 5) That the data cannot be aggregated, redacted, summarized, masked or otherwise protected in a way that allows partial disclosure.^{3/}

SDG&E demonstrates below that the confidential information provided in the Plan (the “Protected Information”) falls within the scope of data protected as confidential pursuant to the IOU Matrix and/or under relevant statutory provisions:^{4/}

^{2/} See, *Administrative Law Judge’s Ruling on San Diego Gas & Electric Company’s April 3, 2007 Motion to File Data Under Seal*, issued May 4, 2007 in R.06-05-027, p. 2 (emphasis added).

^{3/} D.06-06-066, as amended by D.07-05-032, *mimeo*, p. 81, Ordering Paragraph 2.

^{4/} The Matrix is derived from the statutory protections extended to non-public market sensitive and trade secret information. (See D.06-06-066, *mimeo*, note 1, Ordering Paragraph 1). The Commission is obligated to act in a manner consistent with applicable law. The analysis of protection afforded under the Matrix must always produce a result that is consistent with the relevant underlying statutes; if information is eligible for statutory protection, it must be protected under the Matrix. (See *Southern California Edison Co. v. Public Utilities Comm.* 2000 Cal. App. LEXIS 995, *38-39) Thus, by claiming applicability of the Matrix, SDG&E relies upon and simultaneously claims the protection of applicable statutory provisions including, but not limited to, Public Utilities Code §§ 454.5(g) and 583, Govt. Code § 6254(k) and General Order 66-C.

ORDER

Pursuant to Rule 11.4 of the Rules of Practice and Procedure of the California Public Utilities Commission (the “Commission”) and D.06-06-066, *et seq.*, San Diego Gas & Electric Company (“SDG&E”) filed a motion on May 23, 2012 (the “Motion”) requesting authority to file and maintain certain confidential, commercially sensitive and proprietary information under seal. The Motion sought confidential treatment of specific information appearing in SDG&E’s 2009 Renewable Portfolio Standard Procurement Plan and related appendices (together, the “Plan”).

The information for which confidential treatment is sought is protected under the IOU Matrix adopted in D.06-06-066. In addition, the information complies with the limitations on confidentiality specified in the IOU Matrix for that type of data and has not been made public. SDG&E has not publicly disclosed this information. The data cannot be aggregated, further redacted, summarized, masked or otherwise protected in a way that allows partial disclosure.

Therefore, it is ordered that:

1. The confidential information contained in SDG&E's Plan shall remain sealed and is not to be disclosed to anyone other than Commission staff, the Assigned Commissioner, the assigned Administrative Law Judge ("ALJ") or an ALJ designated to decide this motion;
2. Further proceedings, if any, held with respect to matters contained in the confidential information shall be conducted in a manner the assigned ALJ deems reasonably necessary to protect the confidentiality of the materials described herein;
3. Non-market participants may request access to the confidential information pursuant to applicable rules; and
4. All additional documentary evidence in this proceeding that addresses or relates to the subject matter of the confidential information must be treated in the confidential manner described in paragraphs 1 and 2, above.

Administrative Law Judge
