Subject: RE: EE Guidance Memo

Brian –

Here is some of the detail I've received since this morning.

These are the organizations that believe their Energy Watch programs will be cut as a result of communication with PG&E personnel:

Silicon Valley Energy Watch Programs

Redacted and Redacted

East Bay – Redacted and Redacted at Oakland

Alameda and Contra Costa – Redacted

Redacted and Redacted – Sonoma Energy Upgrade California and Energy Watch

Santa Barbara, SLO – “taking away Energy Watch” programs as a result of Regional programs.

Redacted – City of Fresno

ABAG

Redacted in San Mateo

Redacted in Santa Clara County

As you can see, this is a little more than one or two anxious local people.

Denise

Denise – that is contrary to everything I have heard. Can you give me any examples of cities that are hearing this ? I will run this up the flagpole here, but I would like to know more if possible as to where this is occurring. If it is occurring, I want to make sure it is an isolated incident and not something else.

Subject: EE Guidance Memo

Brian,

I am hearing disturbing reports that PG&E reps are threatening local governments if they participate in any kind of regional program. Some have gone so far as to threaten to pull all partnership dollars for anyone that gets involved in regional planning.

I'm writing to you to give you an opportunity to address this before I take it to the Commissioners.

Best,

Denise
