Brian,

That sounds good. To help with scheduling, I'm going to be out of the office June 22nd – July 10th. You might want to give your teams a heads-up for scheduling.

Thanks,

Liza

On a different matter, my team will contact you next week to set up a meeting to chat about the LLNL application. I've asked them to review all of the EPIC language and determine what we can incorporate into the LLNL proposal that will give the Commission and interveners confidence that there is sufficient competition and oversight. I am hopeful they can present some ideas that work well for everyone.

Brian,

Thank you for getting things moving on the data request. We have a slight procedural issue here because the second suspension period has already expired. Due to the fact that the delay was the result of PG&E not providing the data, would you mind sending CPUC an e-mail stating that PG&E is requesting for the suspension period to be extended by another 180 days to allow CPUC staff to analyze the response? We don't have the ability to do that unilaterally at the staff level and our legal advises us that a note from PG&E might help. If that's an issue, please let me know.

Appreciate your help as always.

Kind Regards,

Liza

Thanks. My apologies again on behalf of the company. We were utterly and thoroughly incompetent.

Brian,

Thank you for looking into this. We just received the PG&E response to the data request. We'll proceed with the Advice Letter analysis and hold the disposition letter.

Kind Regards,

Liza

It is our problem. We are incompetent. The draft was sent to an attorney who has had it on his desk for 'review' since then. Poor, poor follow-up by my people. You will receive it tomorrow. If you don't go ahead and deny the AL.

Looks like the second request was made on January 17th to Redacted.

Brian,

There is a long pending AL in ED requesting approval of an agreement between PG&E and TID to supply gas to a new TID power plant. ED has made several data requests involving this AL but has not received a response from PG&E. I am prepared to deny the AL based on a lack of response from PG&E. If you wish to discuss this before I deny the AL please contact me ASAP.
