Subject: Presentations from the Renewable Net Short (RNS) Workshop

This email is being posted to the R.11-05-005 and R.12-03-014 service lists

Energy Division held a workshop on June 12, 2012 to discuss the development of a standardized methodology for calculating the renewable net short (RNS) which will be used to inform 1) RPS procurement, 2) LTPP system planning, and 3) CAISO transmission planning. The presentations from the workshop can be downloaded from the CPUC's RPS website. The link is provided below.
