Subject: RE: PG&E gas storage info

Laura,

I just picked-up your voice mail message. Items to add to the list are decision #s approving the gas storage fields and whether there is an aquifer near the storage fields. Thank you for looking into this and I'm sorry if I disrupted the ceremony.

Gene -- sorry I missed your call. I'm in texas at a wedding, but I just sent out a request for help to get this info asap.

Is there anything beyond the list below you need?

I'm first trying to figure out who has this info at pge. Seems like this is relatively straightforward info -- but somehow it never ends up that way, right?

Laura

Subject: PG&E gas storage info

Laura,

The Energy Division needs some info about PG&E's gas storage fields (e.g., inventory, w/I capacity, when operations began, geology, proximity to inhabitants, etc) relatively soon. When you get a chance, please give me a call. Thank you.

Eugene Cadenasso
