Subject: RE: Comr Peevey's staff Diablo Canyon Power Plant Tour (June 27, 2012)

Did you know that when Diablo Canyon Power Plant goes down for schedule maintenance an estimated \$5 million enters the local economy over the duration?

Did you know that upgrades to electric and gas distribution lines could create estimated 250,000-300,000 new jobs nationally per year?

Okay, okay I did not know that Damon was attending. Is he staying at the hotel? I did not complete any travel forms. I will check with Damon.

Thanks for the info and I hope you all have enjoyed my tid-bits.
