

About the BCSE

2012 BCSE BOARD OFFICERS

Sempra Energy, Chairman
George Williams, Director,
Federal Government Affairs

First Environment, Inc., Chairman Emeritus
Dr. Tod Delaney, President

Johnson Controls, Vice Chairman
Mark Wagner, Vice President,
Government Relations

Global Policy Associates, Treasurer
James Wolf, President

**Polyisocyanurate Insulation
Manufacturers Association, Secretary**
Jared Blum, President

SkyBuilt Power, General Counsel
David Muchow, President & CEO

President, Lisa Jacobson, BCSE

2012 BCSE BOARD MEMBERS

Alliance to Save Energy
Kateri Callahan, President

American Wind Energy Association
Denise Bode, CEO

Austin Energy
Patricia Tierney Alofsin, Director,
Government Relations

EnerNOC, Inc.
Rick Counihan, Vice President,
Regulatory Affairs

Ingersoll Rand
Jordan Doria, Manager,
Stakeholder Engagement

**North American Insulation
Manufacturers Association**
Kate Offringa, President

Recycled Energy Development
Dick Munson, Senior Vice President,
Public Affairs

Sacramento Municipal Utility District
John DiStasio, General Manager & CEO

Solar Energy Industries Association
Rhone Resch, President & CEO

Solar Turbines
Joseph Allen, Manager,
Government Relations

The Stella Group
Scott Sklar, President

Worldwatch Institute
Chris Flavin, President

The Business Council for Sustainable Energy (BCSE) is a coalition of companies and trade associations from the energy efficiency, natural gas and renewable energy sectors, and also includes independent electric power producers, investor-owned utilities, public power, commercial end-users and project developers and service providers for environmental markets.

This year the Council celebrates its 20th anniversary and marks two decades of advocating for policies at the state, national and international levels that increase the use of commercially-available clean energy technologies, products and services. Industry leaders from the energy efficiency, renewable energy and natural gas sectors came together in 1992 to form a coalition dedicated to creating a more secure and sustainable energy future. That vision continues today as the Council's industries work together to meet U.S. energy needs and revitalize the American economy.

The Council Aims To:

- Enact policies that accelerate the deployment of energy efficiency, renewable energy resources, and natural gas;
- Implement cost-effective programs and policies that recognize the environmental attributes of energy sources;
- Advocate policies that increase the efficiency of the U.S. economy and improve energy security;
- Encourage market-based initiatives for energy and environmental policies.

Clean Energy Coast to Coast

From building efficiency retrofits in Hawaii to wind farms in Minnesota to cutting edge natural gas research in Oklahoma, the Council's members are strengthening America's energy future and creating American jobs in every state of the country. Visit <http://www.bcse.org> to learn about the Council's members, including recent news from the industry and an interactive map detailing clean energy businesses across the country.

Global BCSE Strategic Alliance

The Council is a founding member of the International Council for Sustainable Energy. The mission of the organization is to provide a cohesive and credible voice for the global sustainable energy industry in the international climate change discussions. The coalition is a strategic alliance between the Council, European BCSE and Australian Clean Energy Council, and together represents companies and organizations from around the world.

2012 BCSE Members and Supporters

- Alliance to Save Energy**
Washington, DC
- American Gas Association**
Washington, DC
- American Wind Energy Association**
Washington, DC
- Austin Energy**
