(Filed May 5, 2011)

**RENEWABLES PORTFOLIO STANDARD PROCUREMENT PLAN OF
Gexa Energy California, LLC**

Pursuant to the April 5, 2012 Assigned Commissioner's Ruling, Gexa Energy California, LLC ("Gexa Energy California") hereby submits this Renewables Portfolio Standard ("RPS") Procurement Plan for the period of 2012-2022. In accordance with the Assigned Commissioner's Ruling, Gexa Energy California provides the following responses to sections 6.1 through 6.5.

6.1. Assessment of RPS Portfolio Supplies and Demand - § 399.13(a)(5)(A)

Gexa Energy California is a registered Electric Service Provider (ESP #1383) that is not currently serving retail load and has no near term plans to do so. Gexa Energy California affiliates operate in other competitive market areas with renewable compliance standards through third-party short and long term contractual arrangements. Gexa Energy California will comply with the CA RPS program once acquisition activities began and will focus more on short term forecasting and utilization of the new portfolio content categories to meet compliance.

6.2. Potential Compliance Delays - § 399.13(a)(5)(B)

Gexa Energy California's management team has prior experience with the CA RPS program and does not expect compliance delays. The only possibility would be a shortage of renewable generation that could be due to various factors such as transmission and permitting.

6.3. Project Development Status Update - § 399.13(a)(5)(D)

Gexa Energy California does not currently have RPS compliance obligations and is not currently considering contracts.

6.4. Risk Assessment - § 399.13(a)(5)(F)

Gexa Energy California does not currently have RPS compliance obligations and is not currently considering contracts.

6.5. Quantitative Information - §§ 399.13(a)(5)(A), (B), (D) and (F)

Gexa Energy California does not currently have RPS compliance obligations and is not currently considering contracts.

Respectfully Submitted,
