**Description:** At approximately 0930 on June 19, 2012, an employee working for Cleveland Wrecking, a contractor working for PG&E at the Kern Power Plant in Bakersfield California, was fatally injured while performing a tank dismantling task. The incident does not appear to involve or be attributed to PG&E electric facilities. PG&E is reporting this incident as an Operator Judgment to ensure the ESRB is informed of the incident. PG&E personnel are on-site and the investigation is on-going.
