QUESTION 15

Please identify each firm or self-employed individual who, since January 1, 2000, has provided in-line inspection (ILI) services to PG&E in connection with its gas transmission pipelines. As to each firm or person identified, please supply:

- a. the service provider's name;
- b. the service provider's last known address, telephone number, e-mail address and web site URL;
- c. in the case of a service provider other than a self-employed individual, the name(s) of the person(s) principally responsible for dealing with PG&E and for carrying out the services provided;
- d. the kind(s) and classification(s) of licenses held by or for the service provider (e.g., engineer's license, contractor's license, etc.);
- e. a description of each aspect of the services provided;
- f. copies of agreements pursuant to which the services were provided;
- g. the dates and locations of the services provided;
- h. performance records and evaluation of the service provided;
- i. the names of all persons employed by the service provider who have been employed by PG&E in the past, and:
 - i. the time period(s) of each such person's employment with PG&E;
 - ii. the services each such person rendered in connection with the service provider's performance of the services described in response to subpart d. above;

- iii. whether or not the person is a participant or beneficiary of a retirement plan sponsored by PG&E.

ANSWER 15

PG&E objects to this data requests on the grounds that it is outside the scope of this proceeding, not reasonably calculated to the discovery of admissible evidence, unduly burdensome, and that it calls for confidential and competitively sensitive information regarding current and former PG&E employees, and PG&E contractors. Subject to and without waiving the foregoing objections, PG&E responds as follows:

GasPipelineSafetyOIR_DR_LocalUnions246-342_002-Q15Atch01 contains a listing of the In-Line-Inspection contracts that PG&E has utilized as part of the Integrity Management Program since 2000. This list is a subset of those contracts listed in the response to LocalUnions246-342_002-Q10, which is a more inclusive of inspection contracts. PG&E has scanned all of these contract agreements and are providing them as GasPipelineSafetyOIR_DR_LocalUnions246-342_002-Q15Atch02 through GasPipelineSafetyOIR_DR_LocalUnions246-342_002-Q15Atch29, with the exception of a 2002 contract with Rosen USA for the inspection of two sections of L-300A located between Panoche Station and Milpitas Terminal. This contract will have to be located in records storage. PG&E will supplement this response with the additional contract by January 20, 2012.
