QUESTION 18

PG&E's August 11, 2011 data response to the UA Pipeline Local Unions states that when concerns are raised, PG&E employees are "required to contact internal investigative resources when appropriate." Additionally, the data response notes that PG&E maintains a Compliance and Ethics Helpline. Since 2000, how many employees or contractors' employees have used the PG&E process to report a problem?

ANSWER 18

PG&E objects to this data request on the grounds that it is outside the scope of this proceeding, not reasonably calculated to the discovery of admissible evidence, and unrelated to natural gas safety.
