PG&E Data Request No.:	LocalUnions246-342_002-29		
PG&E File Name:	GasPipelineSafetyOIR_DR_LocalUnions246-342_002-Q29		
Request Date:	January 3, 2012	Requester DR No.:	002
Date Sent:	January 20, 2012	Requesting Party:	Plumbers/Pipe Fitters/Steamfitters Local Unions 246/342
PG&E Responder:	Karen Roth	Requester:	Sarah Grossman-Swenson

THE PUC’S INDEPENDENT REVIEW PANEL REPORT (IRPR) ISSUED IN JUNE 2011, ATTACHES AN APPENDIX G, WHICH APPEARS TO BE A PG&E DOCUMENT. THE FOLLOWING QUESTION ALL RELATE TO APPENDIX G.

QUESTION 29

With respect to “*Equipment Inspection and Testing Programs*,” are testing programs only for the equipment?

ANSWER 29

In Appendix G the “Equipment Inspection and Testing Programs” referenced are specific mitigations identified for System Safety for Electric Transmission, Electric Distribution and Electric Substation. Please reference the following documents in Appendix G that list these programs:

Attachment A6 - System Safety - Electric Transmission - Mitigation Matrix

Attachment A7 - System Safety - Electric Distribution - Mitigation Matrix

Attachment A8 - System Safety - Substation - Mitigation Matrix

Although Gas Transmission has maintenance and inspection programs such as leak survey, integrity management, regulator station maintenance, and pipeline patrolling, the term “Equipment Inspection and Testing Programs” in this document was specifically referring to Electric system safety mitigation activities.
