Bruce,

You are right that we can continue for the existing customers. But with TVP starting this year for SMBs we are thinking that we should explore some DR options for that class of customers. We'd like to discuss some ideas with you and your group.

Thanks

Hi [Red]. D.12-04-45 allows PG&E to continue to operate the program for existing customers. Can you clarify your statement below about Smart AC for SMBs being 'closed'?

Bruce and Scarlett,

With the closure of SmartAC for Small and Medium Businesses (SMB), and the start of Time Varying Pricing for this segment, PG&E's would like to develop compelling, cost-effective enhancements to DR programs for the SMB segment.

We'd like to come over and have a discussion about some ideas we have for DR for the Small Medium Business Segment, and get your feedback and guidance on the best way to move forward.

Suggested agenda:

45 minutes – PG&E presentation to provide background and suggested path to move forward.

45 minutes – Discussion

We are thinking the week of July 9th or the week of July 16th at your offices. Can you propose a time?

Please include other staff that you feel would be appropriate.

Thanks and look forward to meeting with you.
