Subject: RE: RPS 20% Closing Report

Hello Robert,

Thank you very much for the opportunity to provide our comments on the RPS 20% Closing Report. Below are SDG&E's comments:

1. Can the title of the report be changed to the "PROVISIONAL CLOSING REPORT FOR CALIFORNIA RENEWABLES PORTFOLIO STANDARD 20% PROGRAM" from the "CLOSING REPORT FOR CALIFORNIA RENEWABLES PORTFOLIO STANDARD 20% PROGRAM". I would really appreciate emphasizing that the results are preliminary..

Closing reports that must be submitted prior to the availability of the relevant *Verification Report* will be provisionally accepted if they demonstrate the retirement for RPS compliance of all available RECs and meet all other requirements, subject to being updated once the appropriate *Verification Report* is available. (pg 19)

After reviewing the closing report submitted by a retail seller, the Director of Energy Division may accept the calculation (if it is based on procurement verified by the CEC and meets all other requirements); may provisionally accept the calculation (if it is based on procurement that has not yet been verified by the CEC and meets all other requirements); or may require the retail seller to submit additional information. A retail seller must update any calculation that has been provisionally accepted not later than 30 days after the CEC's transmittal of the final *Verification Report* for the relevant year to the Commission. (pg 21)

2. The "Procurement Detail" tab, column N identifies the contract classifications based on the SBX12 decision, rather than pre- SBX12 classification. To better address the transition

from the old RPS to the SBX12 and retain the consistency with the previously filed RPS Compliance Reports it would be more clear to keep the same classifications as pertained to pre-2012 RPS Compliance Report (such classifications are: Bundled, TREC, TREC, TREC Approved prior to March 11, 2010).

Thank you again and Happy 4<sup>th</sup> of July. Please feel free to contact me if you have any further questions.

Thank you,

Maria Boldyreva

**Subject:** RPS 20% Closing Report

Hello Everyone,

With the Commission's recent passage of Decision D.12-06-038, Energy Division will be requesting all California Retail Sellers submit a closing report for compliance years 2003-2010. This report will be due by close of business on Monday, August 20, 2012.

Before Energy Division issues a final report template, staff would like to get some feedback on a drafted version of the reporting template. Please find a drafted version of the RPS 20% Closing Report attached for your review. Please note that this version is a draft only, and an official final version of the report will be issued to the service list once all feedback has been processed by Energy Division staff.

Please feel free to contact Robert Blackney ([rb3@cpuc.ca.gov](mailto:rb3@cpuc.ca.gov) – 415.868.5506) with any questions, comments or concerns related to the RPS 20% Closing Report. All feedback related to this drafted version of the RPS 20% Closing Report must be received no later than 5:00pm on Tuesday, July 3, 2012 for consideration by Energy Division staff.

Thank you,
