No problem. To cover your bases I would send a quick email to the service list asking for clarification on your request send per your comment letter. That may light a fire to get the extension out sooner rather than later.

Hi Meredith,

PG&E made a request for an extension and I forwarded the request up to the ALJ. I would fully expect that an extension is granted given the final proposal will get out well after the August 1 filing date.

Subject: Net Short Methodology

Hi Jason,

We developed our August 1 filing based on the methodology that was in the draft staff proposal with our internal forecast and the LTPP forecast. Will there be a ruling confirming this approach? If there are any changes, folks here are concerned that we could not make the August 1 deadline.

Thanks,

Meredith
