Subject: Data Request Regarding RPS Cost Quantification Table

Dear Ms. Allen,

I work in the retail rate design section of the Energy Division and I have been working with Cheryl Lee to obtain additional information about projected RPS costs. She has provided me with the "cost quantification" Tables 1 and 2, which were provided in PG&E's annual draft 2012 RPS procurement plan, filed on May 23, 2012 in response to Commissioner Ferron's 4/5/12 ACR. After reviewing this data, I have the following data request:

With respect to Table 2, please provide the kWh associated with each of the project categories (i.e., biogas, biomass, geothermal, small hydro, solar PV, solar thermal, wind, UOG Solar, and UOG small hydro) for the "CPUC-approved RPS-eligible contracts" for the years 2012 through 2017 as well as the kWh associated with these same project categories for the "Executed but not CPUC-approved RPS-eligible contracts" for the years 2012 – 2017.

We would appreciate a response by Monday, July 23rd. If you have any questions regarding this request, please feel free to contact me.

Thanks in advance for your assistance,

Michele Kito
