Subject: RE: Question on PG&E GRC NOI

Thanks Gurbux. Hi John. EY and NARUC are developing a joint survey on aging infrastructure, safety and risk. One or two questions will focus on the way different utilities link these concepts to their revenue request in their filing documents. We are using CNP and NGrid as examples to help us develop the questions and want to include someone from CA. Nothing from your filing or any reference to you will be included in the Survey, we are just looking at filing documents to understand alternative approaches so we can ask the regulators which they use and what they find most useful. I am aware that you are dealing with this issue and saw your GRC NOI, so I reached out to Paul Clanon to see if the data was available. My address is listed below if you can share the info.

Thank You,
Roy

Subject: RE: Question on PG&E GRC NOI

Roy, I am looping in John Hughes in PG&E's Regulatory Affairs. He is going to check on web-posting of the NOI. In the meantime he can mail you a CD with the NOI docs. I think both of you can take it from here. Thank you both.

Gurbux Kahlon
