**Advice Letter No. 2084**

**CALIFORNIA WATER SERVICE COMPANY (U 60 W)**

To The Public Utilities Commission of the State of California:

California Water Service Company (Cal Water) hereby transmits for filing the following changes in its tariffs applicable to all district and four copies of each are attached hereto:

C.P.U.C.		Schedule	Canceling
<u>Sheet No.</u>	<u>Title of Sheet</u>	<u>No.</u>	C.P.U.C.
			<u>Sheet No.</u>

Please see Appendix 1

**Purpose**

In accordance with the provisions in Decision No. ("D.") 12-07-009, Cal Water is filing this advice letter to establish a twelve-month credit to refund \$1,141,919 recorded in the Temporary Interest Rate Balancing Account.

**Background**

On July 12, 2012, the California Public Utilities Commission ("Commission") issued D. 12-07-009, in Application No. 11-05-001, Cal Water's Cost of Capital proceeding. This decision adopted the Settlement Agreement between Cal Water (along with San Jose Water Company, California-American Water Company and Golden State Water Company) and the Division of Ratepayer Advocates. The Settlement Agreement, provides a rate of return of 8.24% for Cal Water for the period 2012-2014. Specifically, Ordering Paragraph No. 2 in D.12-07-009 states,

*2. The capital costs and capital structures set out in Table I of this decision are approved.*

The financial terms of the approved Settlement Agreement (Table I) in D. 12-07-009 for Cal Water is as follows:

<b>California Water Service Company Adopted Base Year 2012</b>			
Cost of Equity	Cost of Debt	Capital Structure	Rate of Return
9.99%	6.24%	46.60% debt, 53.40% equity	8.24%

Additionally, the Settlement Agreement allows for the disposition of the Temporary Interest Rate Balance Account that is maintained by Cal Water. Table II in D. 12-07-009 states,

*TIRBA balance of \$1,141,919 will be amortized over twelve months via a customer surcredit. Within five days of the effective date of this decision, Cal Water shall file a Tier 1 Advice Letter to implement the surcredit.*

**Compliance**

Cal Water is filing this advice letter in compliance with the provisions of D.12-07-009 and is authorized to return to its customers the \$1,141,919 recorded in the Temporary Interest Rate Balancing Account via a credit over 12 months.

Below is a summary of the surcredits applicable to each district.

Workpapers will be provided in the standard format.

The Temporary Interest Rate Balancing Account will be discontinued once the aforementioned balance has been fully amortized.

Cal Water will be filing a separate advice letter for the Cost of Capital rate implementations. Cal Water requests that the TIRBA credits be implemented on the same date that the other Cost of Capital changes will be implemented, which Cal Water will propose in the separate advice letter be September 1, 2012. This approach will allow programming of Cal Water's billing system for these multiple changes to be streamlined, will enable customer service representatives to explain the reasons for these related changes in a more comprehensive manner, and will help to mitigate customer confusion.

### **Tier Designation**

Pursuant to D. 12-07-009, this advice letter is submitted with a Tier 1 designation. For the reasons discussed above, Cal Water requests that this advice letter be made effective on August 31, 2012.

### **Requested Effective Date**

Under General Order 96-B, Water Industry Rule 7.3.1, as modified by Resolution W-4664, this is a Tier 1 advice letter. Cal Water requests this advice letter to have a later effective date of August 31, 2012, to allow for inputs to the utility billing system.

### **Notice**

This advice letter is filed in compliance with Standard Practice U-27-W. No customer notice is required. In accordance with General Order 96-B, General Rule 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this advice letter will be mailed or electronically transmitted on July 17, 2012, to competing and adjacent utilities and other utilities or interested parties having requested such notification.

### **Response or Protest**

Anyone may respond to or protest this advice letter. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or

**CALIFORNIA WATER SERVICE COMPANY**

Advice Letter 2084, TIRBA Amortization

Page 4

(6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission.)

A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

A response or protest must be made in writing or by electronic mail and must be received by the Division of Water and Audits within 20 days of the date this advice letter is filed. The address for mailing or delivering a protest is:

Tariff Unit, Division of Water and Audits, 3<sup>rd</sup> floor  
California Public Utilities Commission,  
505 Van Ness Avenue, San Francisco, CA 94102  
[water\\_division@cpuc.ca.gov](mailto:water_division@cpuc.ca.gov)

On the same date the response or protest is submitted to the Division of Water and Audits, the respondent or protestant shall send a copy by mail (or e-mail) to us, addressed to:

Darin T. Duncan  
California Water Service Company  
1720 North First Street,  
San Jose, California 95112  
Fax 408/367-8430 or  
E-mail [dduncan@calwater.com](mailto:dduncan@calwater.com)

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform the Division of Water and Audits, within the 20-day protest period, so that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

The advice letter process does not provide for any responses, protests or comments, except for the utility's reply, after the 20-day comment period.

Replies: The utility shall reply to each protest and may reply to any response. Each reply must be received by the Division of Water and Audits within 5 business days after the end of the protest period, and shall be served on the same day to the person who filed the protest or response.

Schedule No. AV-4

Antelope Valley Tariff Area

(All Antelope Valley Service Areas)

SERVICE TO PRIVATELY OWNED FIRE PROTECTION SYSTEMS

APPLICABILITY

Applicable to all water service furnished for privately owned fire protection systems.

TERRITORY

All communities served by the Antelope Valley District.

RATES

For each inch of diameter of service connection ..... Per Month  
\$9.1863

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fee set forth on Schedule UF.
2. The customer will pay, without refund, the entire cost of the private fire service facilities.
3. The private fire service facilities shall be installed by the utility or under the utility's direction and shall be the sole property of the applicant but subject to the control of the utility, with the right to alter, repair, replace and the right to remove upon discontinuance of service.
4. The minimum diameter for the private fire service connection will be four inches. The maximum diameter shall not be larger than the diameter of the water main to which the private fire service facilities are connected.
5. If a water main of adequate size is not available adjacent to the premises to be served, then a new main from the nearest existing main of adequate size will be installed by the utility at the cost of the customer. Such cost shall not be subject to refund.
6. The private fire service facilities will include a detector check valve or other similar device acceptable to the utility which will indicate the use of water. The facilities may be located within the customer's premises or within public rights of way adjacent thereto. Where located within the premises, the utility and its duly authorized agents shall have the right of ingress to and egress from the premises for all purposes related to said facilities. In the event the installation is solely for a private fire hydrant facility, the requirement for a detector check valve or other similar device may be waived.
7. No structure shall be built over the private fire service facilities and the customer shall maintain and safeguard the area occupied by the private fire service facilities from traffic and other hazardous conditions. The customer will be responsible for any damage to the private fire service facilities whether resulting from the use or operation of appliances and facilities on customer's premises or otherwise.
8. Subject to the approval of the utility, any change in the location or construction of the private fire service facilities as may be requested by public authority or the customer will be made by the utility following payment to the utility of the entire cost of such change.
9. The customer's installation must be such as to separate effectively the private fire service facilities from that of the customer's regular domestic water service. Any unauthorized use of water from the private fire service facilities will be charged for at the applicable tariff rates and may be grounds for the utility's discontinuing private fire service without liability to the utility.
10. There shall be no cross connection between the systems supplied by water through the utility's private fire service facilities and any other source of supply without the specific approval of the utility. The specific approval, if given, will at least require at the customer's expense a special double check valve installation or other backflow prevention device acceptable to the utility. Any cross connection may be grounds for immediately discontinuing private fire service without liability to the utility.
11. The utility will supply only such water at such pressure as may be available from time to time as a result of its normal operation of the system. The customer shall indemnify the utility and save it harmless against any and all claims arising against the utility for any loss or damage resulting from service under this schedule. Section 774 of the Public Utilities Commission Code limits the liability of the utility resulting from a claim regarding adequacy of pressure or supply for fire protection service.
12. The customer shall be responsible for the periodic testing of any backflow prevention devices as required by public authority or the utility. Any repair or replacement of such devices or of any other facilities installed to provide private fire service shall be done at the customer's expense. Any refusal to comply with the above requirements may be grounds for the utility's discontinuing private fire service without liability to the utility.
13. A Temporary Interest Rate Balancing Account surcredit of \$0.56 per service per month will be applied (N)  
to each bill for 12 months, beginning August 31, 2012, the effective date of Advice Letter 2084. (N)

METERED RECYCLED WATER SERVICE

Page 2 of 2

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fees set forth on Schedule UF.
2. Recycled water service refers to non-potable water that has been processed and treated by one of the following methods:
  - a. Title 22 Water refers to wastewater that has undergone tertiary treatment that meets recycled water use standards as established in Title 22 of the California Code of Regulations, Division 4 Environmental Health, Chapter 3 Reclamation Criteria, Articles 1 through 10.
  - b. R.O. Water refers to Title 22 Water that has further undergone reverse osmosis treatment to remove salts and dissolved solids.
  - c. Nitrified Water refers to Title 22 Water that has further undergone a biological treatment and processing for removal of ammonia.
3. A Recycled Water Memorandum Account has been established to track under/over collections associated with the purchase and sale of recycled water. This account will include all charges from West Basin Municipal Water District not included in the current recycled rate, as well as the lower cost of water derived from charges and billings under West Basin's declining block structure and the Company's declining block structure. West Basin Municipal Water District credits not credited directly to a customer will be credited to this account and will offset future rate increases for recycled water customers. This account will be reconciled at least annually on or about the date date when West Basin Municipal Water District changes its rates.
4. All bills are subject to any applicable surcharges on Schedules RSF and LIRA-SC.
5. A surcharge of \$0.0452 per 100 cubic feet of water is to be added to each bill for 24 months on or after January 1, 2011, to reflect interim rates authorized by the Commission in Decision 10-12-017.

SERVICE TO PRIVATELY OWNED FIRE PROTECTION SYSTEMS

APPLICABILITY

Applicable to all water service furnished for privately owned fire protection systems.

TERRITORY

Portions of Carson, Los Angeles, Long Beach, Torrance, and vicinity, Los Angeles County.

RATES

	Per Month
For each inch of diameter of service connection .....	\$10.37

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fees set forth on Schedule UF.
2. The customer will pay, without refund, the entire cost of the private fire service facilities.
3. The private fire service facilities shall be installed by the utility or under the utility's direction and shall be the sole property of the applicant but subject to the control of the utility, with the right to alter, repair, replace and the right to remove upon discontinuance of service.
4. The minimum diameter for the private fire service connection will be four inches. The maximum diameter shall not be larger than the diameter of the water main to which the private fire service facilities are connected.
5. If a water main of adequate size is not available adjacent to the premises to be served, then a new main from the nearest existing main of adequate size will be installed by the utility at the cost of the customer. Such cost shall not be subject to refund.
6. The private fire service facilities will include a detector check valve or other similar device acceptable to the utility which will indicate the use of water. The facilities may be located within the customer's premises or within public rights of way adjacent thereto. Where located within the premises, the utility and its duly authorized agents shall have the right of ingress to and egress from the premises for all purposes related to said facilities. In the event the installation is solely for a private fire hydrant facility, the requirement for a detector check valve or other similar device may be waived.
7. No structure shall be built over the private fire service facilities and the customer shall maintain and safeguard the area occupied by the private fire service facilities from traffic and other hazardous conditions. The customer will be responsible for any damage to the private fire service facilities whether resulting from the use or operation of appliances and facilities on customer's premises or otherwise.
8. Subject to the approval of the utility, any change in the location or construction of the private fire service facilities as may be requested by public authority or the customer will be made by the utility following payment to the utility of the entire cost of such change.
9. The customer's installation must be such as to separate effectively the private fire service facilities from that of the customer's regular domestic water service. Any unauthorized use of water from the private fire service facilities will be charged for at the applicable tariff rates and may be grounds for the utility's discontinuing private fire service without liability to the utility.
10. There shall be no cross connection between the systems supplied by water through the utility's private fire service facilities and any other source of supply without the specific approval of the utility. The specific approval, if given, will at least require at the customer's expense a special double check valve installation or other backflow prevention device acceptable to the utility. Any cross connection may be grounds for immediately discontinuing private fire service without liability to the utility.
11. The utility will supply only such water at such pressure as may be available from time to time as a result of its normal operation of the system. The customer shall indemnify the utility and save it harmless against any and all claims arising against the utility for any loss or damage resulting from service under this schedule. Section 774 of the Public Utilities Commission Code limits the liability of the utility resulting from a claim regarding adequacy of pressure or supply for fire protection service.
12. The customer shall be responsible for the periodic testing of any backflow prevention devices as required by public authority or the utility. Any repair or replacement of such devices or of any other facilities installed to provide private fire service shall be done at the customer's expense. Any refusal to comply with the above requirements may be grounds for the utility's discontinuing private fire service without liability to the utility.
13. A Temporary Interest Rate Balancing Account surcredit of \$0.22 per service per month will be applied ( N )  
 to each bill for 12 months, beginning August 31, 2012, the effective date of Advice Letter 2084. ( N )

Schedule No. KRV-4

Kern River Valley Tariff Area  
 (All Service Areas)

SERVICE TO PRIVATELY OWNED FIRE PROTECTION SYSTEMS

APPLICABILITY

Applicable to all water service furnished for privately owned fire protection systems.

TERRITORY

All communities served by Kern River Valley District.

RATES

	<u>Per Month</u>
For each inch diameter of service connection .....	\$7.32

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fee set forth on Schedules No. UF.
2. The customer will pay, without refund, the entire cost of the private fire service facilities.
3. The private fire service facilities shall be installed by the utility or under the utility's direction and shall be the sole property of the applicant but subject to the control of the utility, with the right to alter, repair, replace and the right to remove upon discontinuance of service.
4. The minimum diameter for the private fire service connection will be four inches. The maximum diameter shall not be larger than the diameter of the water main to which the private fire service facilities are connected.
5. If a water main of adequate size is not available adjacent to the premises to be served, then a new main from the nearest existing main of adequate size will be installed by the utility at the cost of the customer. Such cost shall not be subject to refund.
6. The private fire service facilities will include a detector check valve or other similar device acceptable to the utility which will indicate the use of water. The facilities may be located within the customer's premises or within public rights of way adjacent thereto. Where located within the premises, the utility and its duly authorized agents shall have the right of ingress to and egress from the premises for all purposes related to said facilities. In the event the installation is solely for a private fire hydrant facility, the requirement for a detector check valve or other similar device may be waived.
7. No structure shall be built over the private fire service facilities and the customer shall maintain and safeguard the area occupied by the private fire service facilities from traffic and other hazardous conditions. The customer will be responsible for any damage to the private fire service facilities whether resulting from the use or operation of appliances and facilities on customer's premises or otherwise.
8. Subject to the approval of the utility, any change in the location or construction of the private fire service facilities as may be requested by public authority or the customer will be made by the utility following payment to the utility of the entire cost of such change.
9. The customer's installation must be such as to separate effectively the private fire service facilities from that of the customer's regular domestic water service. Any unauthorized use of water from the private fire service facilities will be charged for at the applicable tariff rates and may be grounds for the utility's discontinuing private fire service without liability to the utility.
10. There shall be no cross connection between the systems supplied by water through the utility's private fire service facilities and any other source of supply without the specific approval of the utility. The specific approval, if given, will at least require at the customer's expense a special double check valve installation or other backflow prevention device acceptable to the utility. Any cross connection may be grounds for immediately discontinuing private fire service without liability to the utility.
11. The utility will supply only such water at such pressure as may be available from time to time as a result of its normal operation of the system. The customer shall indemnify the utility and save it harmless against any and all claims arising against the utility for any loss or damage resulting from service under this schedule. Section 774 of the Public Utilities Commission Code limits the liability of the utility resulting from a claim regarding adequacy of pressure or supply for fire protection service.
12. The customer shall be responsible for the periodic testing of any backflow prevention devices as required by public authority or the utility. Any repair or replacement of such devices or of any other facilities installed to provide private fire service shall be done at the customer's expense. Any refusal to comply with the above requirements may be grounds for
13. A Temporary Interest Rate Balancing Account surcredit of \$0.45 per service per month will be applied ( N )  
 to each bill for 12 months, beginning August 31, 2012, the effective date of Advice Letter 2084. ( N )

The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the quantity rate.

SPECIAL CONDITIONS

1. Any service to a residential customer who requires a larger meter and service line because of fire flow requirement to a residential fire sprinkler system will be billed at the rate for "1-inch meter and 1-1/2 inch meter with residential fire sprinkler systems" and the quantity rate based on the quantity of water used. Determination of eligibility for this tariff condition will be determined by the utility at customer's request.
2. All bills are subject to the reimbursement fees set forth on Schedule UF.
3. The Utility undertakes to supply only such water at such pressure as may be available from time to time as the result of its normal operation of the system. Section 774 of the Public Utilities Code limits the liability of the Utility resulting from a claim regarding the provision of maintenance of an adequate water supply, water pressure, equipment or other fire protection facility or service. This limit of liability includes but is not limited to the construction and repair of fire protection facilities. Acceptance of service under this tariff is acknowledgement of notice of the provisions of Section 774 of the Public Utilities Code.
4. In accordance with Section 2714 of the Public Utilities Code, if a tenant in a rental unit leaves owing the company, service to subsequent tenants in that unit will, at the company's option, be furnished on the account of the landlord or property owner.
