Subject: Natural Gas Pipeline Research Workshop - August 7th 2012

Dear PAC Members,

On Tuesday August 7th 2012 the staff of the California Energy Commission's Public Interest Energy Research (PIER) program will conduct a public workshop to discuss novel pipeline inspection technologies, and both GTI and UC Berkeley will present the latest results. We would like to invite you all to attend this workshop, which is also part of the deliverables for our respective projects. I am attaching a flyer which provides further details about this workshop.

To avoid conflicting with the workshop we will move our regular bi-monthly PAC meeting to Monday 8/20th 1-2 pm. I'll send more announcements about the PAC meeting at a later time.

Sincerely,

Igor (UCB Nat. Gas MEMS Sensors group)
