**QUESTION 1**

What was PG&E's actual PSEP costs incurred in 2011 that shareholders will absorb?  
Note if the reported amounts are pre or after tax dollars.

**ANSWER 1**

In 2011, PG&E incurred PSEP expense-related costs totaling \$331.7 million. In addition, PG&E incurred approximately \$167,875 in PSEP capital related costs, i.e. the 2011 revenue requirement related to PSEP capital costs for projects that were placed in service in 2011. Under PSEP's proposed shareholder/customer allocation, PG&E has proposed to allocate 2011 costs to shareholders.

All amounts quoted are in pre-tax dollars.
